Allies Stall Red Drive In Central Korea U.S. PLANS SIX EUROPE DIVISIONS

Relief Force Hits Through To Anchor

4 Enemy Divisions Knocked Out During Stout U.N. Defense

TOKYO, Feb. 15 (AP)—An Allied relief column smashed through a Chinese Red ring today to reinforce American and French forces holding the Chipuyong anchor on the central Korean war front.

The relief force battled eight hours before breaking through to the Chipuyong perimeter at 5:30 p. m. (3:30 a. m., East Liverpool time). The action began five miles south-southwest of the town.

The hard-hit Chinese finally broke and ran.

Chipuyong, 35 air miles east-southeast of Seoul, is the left flank anchor of a 20-mile Allied defense line stretching over snow-mantled hills and valleys to Wonju, key to the central mountain passes.

The American-French garrison stoutly withstood two days of massed Red infantry assaults to help break the back of the drive aimed at cracking the central front. The Communist push was stopped Wednesday.

The U.S. 10th Corps bore the brunt of the massed Communist drive down central Korea's rocky spine. Four Red divisions were knocked out.

Lieutenant General Matthew B. Ridgway, Eighth Army commander, told officers of the 10th Corps that Allied forces "shall strike back and destroy the bulk of the enemy's forces which we do not capture."

Red casualties were counted at 10,593 on all fronts Wednesday. It brought to nearly 100,000 those killed, wounded or captured since the Allied limited push began Jan. 25.

Associated Press Correspondent John Randolph reported the Chipuyong garrison radioed that the Chinese were "fleeing in all directions" after the relief column rammed through from the south.

However, A.P. Correspondent William J. Waugh reported more than 1,000 Reds are dug in on high ground north of the town.

On the western front, American doughboys and artillery wiped out 400 Chinese who sneaked across the Han River Wednesday night near Seoul.

It was the second consecutive and disastrous Red attempt to

Navy Says Koreans Didn't Hit Mainland

TOKYO, Feb. 15 (AP)—U.S. naval officials reported today that South Korean Marines occupied two small islands in Wonsan Bay far north of the 38th Parallel Wednesday, but did not land on the mainland.

They said the operation was small and militarily secondary.

This conflicted with an account given out at Eighth Army headquarters Wednesday night. The Army said the South Koreans got to the mainland and reached the outskirts of Wonsan.

The Army also reported initially that the battleship Missouri participated in shelling the east coast port. The Navy said the Missouri is still operating off the west coast of Korea. The U.S. Navy gave no indication that any naval units except South Korean were involved in the operation.

The United Nations east coast fleet yesterday bombarded targets from Sampo to Kyongsong, a stretch of coast line more than 50 miles north of Wonsan.

American naval officers said the landing operation was planned and carried out by South Koreans.

Licensing, 50% Down Payment Orders Slap Tighter Curbs Upon New Building

WASHINGTON, Feb. 15 (AP)—Two building controls aimed at combating inflation and saving materials for defense became effective today.

One requires federal licensing for new commercial construction. The other requires a 50 per cent cash down payment on a vast range of non-residential construction.

The licensing system replaces a general ban that has been in effect on most such building since Jan. 13.

The credit-tightening order applies to stores, offices, hotels, banks, warehouses, garages, service stations, restaurants, theaters, clubs and "other new structures used for non-residential purposes."

The order was issued yesterday by the Federal Reserve Board.

Meanwhile, economic stabilization director, Eric Johnston, told the House ways and means committee that legislation will be submitted to Congress to "equalize and stabilize" farm prices and industrial wages. Mr. Johnston did not give details of the proposals, but said they will be "equitable and fair."

Under the construction licensing program, new projects will be authorized only if the National Production Authority finds that they (A) further the defense effort, (B) are essential to public health, welfare or safety or (C) will alleviate or prevent a hardship to a particular community.

Eighteen Commerce Department field offices are authorized to accept applications for building licenses.

Officials expect the system to hold new commercial construction far below the \$1,500,000,000 level of last year.

Applications for building permits must contain plans, specifications and material lists.

Types of construction affected include: Motels and tourist camps, barber shops, laundry and dry cleaning establishments, shoe repair and tailor shops, under taking and cemetery buildings, community and neighborhood buildings, retail stores and shopping centers and storage warehouses for personal effects.

Construction costing less than \$5,000 in 12 months is exempted from licensing controls, but not from the new credit curb. This specifies that not more than 50 per cent of a new non-residential construction job may be financed by borrowing.

The same limitation applies to non-residential repairs, enlargements or reconstruction if they exceed 15 per cent of the appraised value of the existing structure.

The Reserve Board also limited the maturities of loans for non-residential construction to 25 years and required that the principal be paid off in installments, not in a lump sum after the maturity date.

The order does not apply in cases where the credit is extended under a firm written agreement made prior to today.

Also exempt are schools, hospitals, churches, public utilities and property for use by the government or any political subdivision and structures projected by manufacturers, mining companies or farmers where more than 80 per cent of the floor space would be used for any one of the following purposes:

Processing materials or goods into finished or partly-finished articles.

Mining or otherwise extracting raw materials.

Production, shelter or storage of crops, livestock or commodities.

Two-Package Plan Doomed

'Quick' Tax Jump By Spring Fades

WASHINGTON, Feb. 15 (AP)—The prospect of any "quickie" tax increase this spring has vanished. Republicans said a decision also doomed President Truman's proposal for a two-package approach to raising the \$18,500,000,000 he asked to meet mounting military costs.

Chairman Doughton (D) of North Carolina announced after an hour-long closed session of the committee that its current tax hearings will cover all revenue-raising suggestions made by Secretary of the Treasury Snyder and any other proposals that members of the committee desire to bring up.

Only after those hearings are completed, he said, will the committee decide whether to proceed with a two-package or one-package bill.

Mr. Truman and Mr. Snyder urged Congress to pass as quickly as possible a bill to raise taxes slightly more than \$10,000,000,000 a year, dating it back to Jan. 1, and then consider in more leisurely fashion still another. They said the second one should provide enough to balance Mr. Truman's \$71,600,000,000 budget for the fiscal year starting July 1—about \$6,500,000,000.

Representative Reed (R) of New York told reporters the House group's decision was "tantamount" to rejection of the President's plan for the approach.

Representative Simpson (R) of Pennsylvania concurred in Mr. Reed's interpretation. Both are high-ranking G.O.P. members of the committee.

Although Mr. Doughton pledged that the committee will expedite things as much as possible while doing a good job, he also remarked that "we can't do this before breakfast."

Mr. Snyder has called for increases of \$4,000,000,000 in individual income taxes, \$3,000,000,000 in corporate tax boosts and \$3,000,000,000 more in higher excise (sales) taxes. He also has urged action to close what he described as a number of "loopholes" in the present law.

In the course of yesterday's hearings, Representative Harrison (D) of Virginia told the economic stabilization administrator, Eric Johnston, there is a "serious possibility" that no tax increase legislation can be laid on the President's desk before the middle of the year.

Mr. Johnson, who was pleading for swift enactment of a "tough and steep" tax increase, said any delay would make the problem of stabilizing the nation's economy more difficult, and even impossible if prolonged too much.

The House judiciary committee thought it could be tougher—and made it so before it recommended the measure for passage. It tacked on a \$5,000 maximum fine, in addition to the jail term, for drawing \$100 or more in relief payments illegally.

The Groneman provision that relief chiselers of under \$100 face a maximum penalty of \$500 and three months in jail was left unchanged.

The state Senate, meanwhile, mulled over a demand by its majority leader, Senator Roscoe R. Walcott (R) of Franklin county, for a full-dress investigation of the state Civil Service Commission.

Mr. Walcott told the Senate in a resolution there have been reports of unfairness, discrimination and delays by the commission and that co-operation between the commission and state department heads is lacking.

Commission members are Chairman Carl Smith, Democrat, and Gertrude Jones, Republican. Neither was available for comment.

The Senate completed legislative action on the much-amended auto tag bill. It now goes to the governor.

Originally intended as a measure to conserve steel for the defense effort, it now simply guarantees Ohio a means of licensing its motor vehicles during the next three years of expected steel shortage. It provides:

Each motorist next month will get both his 1951 license tags. If no steel is available for 1952 tags, the registrar may issue either one or two tags. The same goes for 1953.

If Ohio still is unable to get steel early in 1953 to start making 1954 tags—that's the concern of the 100th General Assembly, which will be meeting then.

Ohio Toughens Bill Against Relief Chiseler

\$5,000 Fine Tacked Onto Jail Term As Plan Reaches House

COLUMBUS, Feb. 15 (AP)—A proposed law to make relief chiseling a hazardous practice arrived on the floor of the Ohio House today. Its original teeth have been replaced by fangs.

Representative Robert F. Groneman (R) of Hamilton thought he had a pretty tough bill when he proposed a jail term of one to three years for chiseling \$100 or more.

The House judiciary committee thought it could be tougher—and made it so before it recommended the measure for passage. It tacked on a \$5,000 maximum fine, in addition to the jail term, for drawing \$100 or more in relief payments illegally.

The Groneman provision that relief chiselers of under \$100 face a maximum penalty of \$500 and three months in jail was left unchanged.

The state Senate, meanwhile, mulled over a demand by its majority leader, Senator Roscoe R. Walcott (R) of Franklin county, for a full-dress investigation of the state Civil Service Commission.

Mr. Walcott told the Senate in a resolution there have been reports of unfairness, discrimination and delays by the commission and that co-operation between the commission and state department heads is lacking.

Commission members are Chairman Carl Smith, Democrat, and Gertrude Jones, Republican. Neither was available for comment.

The Senate also passed a bill to permit local subdivisions to submit special tax levies at the May 8 primary and to reduce the time for placing an issue on the ballot to 25 days prior to May 8.

Belt Backers 'Rest Case' In Assembly

Stewart Insists Rails Scarcely Would Feel Dent Made By Line

COLUMBUS, Feb. 15 (AP)—Supporters of the proposed Lorain-East Liverpool belt line rested their case before the Senate Judiciary committee last night.

H. B. Stewart of Akron, president of Riverlake Belt Conveyor Lines, Inc., was the chief witness. He declared:

"Riverlake would take only 2 1/2 per cent of the Ohio railroads' business. In the present economy, a railroad's revenue is limited only by the amount of its equipment. Riverlake would allow the railroads to divert 44,000 scarce cars to other business. They would scarcely feel the dent made by Riverlake."

But even as Mr. Stewart was speaking, representatives of Ohio railroads and the transportation brotherhoods were sharpening their wits and their arguments for their appearance before the committee Feb. 26-27-28. They form the opposition to the belt line.

This is the issue: Shall cargo-hauling belt conveyors—a new idea in bulk transportation—be granted public utility status? This status carries with it the power of eminent domain. Under it conveyor lines could appropriate land for rights of way after paying for it.

Riverlake—which would carry iron ore and limestone from Lake Erie to steel-producing areas—is the only conveyor now proposed.

Virtually the same proposal was before the last legislature in bills offered in both houses. Both bills died in committee. Author of the bill now under study by the Senate judiciary committee is its chairman, Senator Carl D. Sheppard (R) of Akron.

Mr. Stewart gave the committee this picture of the proposed line:

It would require 375,000 tons of steel and 17,000 long tons of synthetic rubber to build it. It would haul cargoes at nearly seven miles an hour over a 103-mile system touching 12 northern Ohio counties. And, he added:

"I can assure you that if you are 10 feet away from it, except at terminals, you won't be able to hear the belt in operation. At terminals, where enclosed chutes

2 More Seized In 1950 Plot To Shoot Truman

Bronx Home Called Puerto Rican 'Nest' For Assassination

NEW YORK, Feb. 15 (AP)—Secret Service agents have seized a man and wife whose Bronx home was described as the Puerto Rican Nationalist party nest where the Truman assassination plot was hatched.

The couple, arrested yesterday, is charged with obstruction of justice. They are John Correa, 43, and his wife Mary.

Federal Judge Edward Weinfeld opened a sealed indictment naming the Correas in connection with the plot leading to the gunplay outside Blair House last Nov. 1.

Assistant U.S. Attorney Frederick Block told the judge that a dinner meeting was held in the Correa home two weeks before the attempted assassination of President Truman.

The prosecutor said that one of those at the meeting was Oscar Collazo, one of the two Puerto Ricans who tried to blast their way into Blair House where the President was resting.

The government believes, Mr. Block said, that the dinner "was a conspiratorial meeting at which plans for the assassination of President Truman were laid and at which Collazo was selected."

Collazo, a New Yorker, was wounded in the Blair House battle and is under indictment in Washington for murder.

Top-Secret Data Bared By Marshall

Defense Step Calls For Sending Of 4 Additional Groups

WASHINGTON, Feb. 15 (AP)—Administration plans contemplate that six U. S. Army divisions—triple the American forces now in Europe—will serve with the combined Allied armies being organized to defend western Europe against possible Communist aggression.

Secretary of Defense George C. Marshall gave the figure, which means sending four additional divisions, to the Senate foreign relations and armed services committees today. He said he did it "reluctantly," but in the belief it is better than to have a debate over uncertainties.

General Marshall gave no overall figure as to numbers of men. But an American Army division consists of about 18,000 men. In addition, support elements—supply and maintenance, communication, transportation and other units—are needed to keep combat forces in a state of readiness.

The United States now has in Europe the First Infantry Division and a constabulary force—equivalent to a second division—trained and equipped for field combat, yet the last official indication of troop strength in Europe was about 97,000 men. That, more than 60,000 men of the present force presumably are in support elements.

The Senate committees are considering whether Congress should adopt a resolution of some nature concerning the "troops-to-Europe" issue. General Marshall was the first witness at hearings.

In ripping the top-secret label off this much of the government's blueprint for defending western Europe, General Marshall emphasized that the aim of the forces is to keep the peace.

He said the intention is:

"To deter aggression, if that be possible.

"To defeat aggression if, in spite of all our efforts, the actions of the Soviet Union or its satellites should precipitate another world war."

As to any congressional stand, General Marshall strongly urged that the legislators should not do anything which would tie the hands of General Dwight D. Eisenhower.

are involved, you might hear it as far away as 50 feet. There will be no vibration.

The proposed Riverlake line, he said, is thoroughly engineered. This year, lake carriers hope to haul 100 million tons of iron ore from Lake Superior ports to lower lake points. Some 57 per cent of a 240-day season haul is unloaded at Lake Erie ports, Mr. Stewart told the committee. Riverlake's rated capacity would allow it to carry 32 million tons inland in the course of a season and return 20 million tons of coal to lake ports at the same time.

New loading and unloading devices for lake freighters developed for Riverlake would speed that operation to the point where the saving in time would equal the adding of seven vessels to the lake fleet, Mr. Stewart declared.

Ohio coal transported by the conveyor would come only from the fields in Belmont, Jefferson and Harrison counties, the committee was informed. Some 12 million tons a year is mined in those counties in a strip along the Ohio River. This coal could be trucked to Ohio River barges or hauled to the river on private conveyors, Mr. Stewart said.

Mr. Stewart also is an official of the Akron Canton and Youngstown Railroad Reminding the committee of that, he added.

We must consider the railroads as the backbone of national defense. But we also must be frank. In the last 32 years since World War I the railroads haven't gone forward in their ability to produce. There are now 600,000 fewer freight cars than in 1918 and, although present-day cars are larger, the railroads over-all capacity is less.

Yet it appears we are in for many years of peak mass production. All types of transport must be expanded. If Riverlake frees 44,000 freight cars for other uses it will do that much to alleviate the critical car shortage.

Others appearing before the committee in its final session for belt conveyor proponents were Robert Burwinkel of Cincinnati who represented the AFL Ohio Building Trades Council and former senator Howard Metzger, general counsel of the Ohio Federation of Labor. Both brought their groups' support of the bill to the committee's attention.

cross the icy stream near the burned-out former capital. More than 1,100 Korean reds were killed there in a foray early Wednesday.

The Chinese, creeping across on a railroad bridge, entrenched themselves on a hill two and a half miles southeast of Seoul. At daybreak, big guns of the U. S. Third Infantry division pounded the hill and infantrymen opened up at closer range.

Lieutenant Remer Y. Brinson of Savannah, Ga., a front-line platoon leader, said 200 Chinese survivors broke and fled for the Han in panic. Not one reached the river alive, he added.

Elsewhere on the frigid front, Allied forces are making limited counter-attacks. AP Correspondent Tom Bradshaw reported American troops, attacking with hand grenades took high ground northeast of Kyonggan, 17 miles southeast of Seoul.

The Reds tried twice to retake the hill—No. 578 named for its height in meters—but had not succeeded by noon today.

General Ridgway pinned the three stars of a lieutenant general on Major General Edward M. Almond, the 10th Corps commander.

The mounting toll of Chinese and Korean Reds rose even higher from unceasing attacks by Allied planes.

An Eighth Army spokesman said Allied patrols are ranging north from the Kimp'o airfield northwest of Seoul. The big field was captured without opposition last week end by U. N. forces, but is not yet in operation.

enhower, as commander of Allied forces, by limiting the number of troops that could be placed under his command.

The proposed six U. S. divisions under General Eisenhower would be part of a total contemplated defense force of about 40 divisions.

In addition to the U. S. ground forces, there also would be American air and naval units in the combined defense forces.

The large hearing room was crowded as General Marshall, wearing a gray suit and brown tie, took the witness stand. Sixteen of the 26 members of the committee were on hand.

Senator Connally (D) of Texas, presiding, urged that senators "speed things along as much as possible" in questioning witnesses.

Peering over his spectacles, he admonished spectators to be quiet, saying "The committee can't run a horse show."

Mr. Connally then read a pending resolution by Senator Wheeler (R) of Nebraska which would declare the Senate feels President Truman should not send more ground forces to Europe until Congress passes on the question.

Technically, this resolution is the business before the committee. Administration forces hope to substitute for it a resolution specifically approving the dispatch of troops.

Because of the great amount

of discussion which has been centered on the subject of ground forces, I have obtained the express permission of the President to discuss with you the specific strength of the ground forces which the United States has planned to maintain in Europe in the present emergency," General Marshall said.

He was the first administration witness in the hearings phase of "The Great Debate" on how the U. S. should build up western Europe's defenses.

As background for the hearings, the committee released what it termed "certain basic facts" about Russian and western world military strengths. Its report said Russia and her European satellites have about 5,000,000 men under arms, the North Atlantic treaty nations about 4,500,000.

During continuation of the hearings over the next week or so the committee expects to hear also from Secretary of State Dean Acheson, General Omar Bradley, chairman of the joint chiefs of staff, General J. Lawton Collins, army chief of staff, General H. H. Vandenberg, air chief of staff, and Admiral Forrest P. Sherman, chief of naval operations.

Any Answer?

REPRESENTATIVE Joseph W. Martin Jr., Republican leader in the House, did the honors for Abraham Lincoln Monday night in Brooklyn, with something to spare. He asked the Department of State for an accounting of its policy toward Chiang Kai-shek. In fact, he demanded an accounting.

Specifically, he asked why upward of 800,000 Nationalist troops under Chiang's command in Formosa should not be allowed to fight on the mainland as part of the United Nations police force. He wondered why, since the State Department's original reason for isolating the Nationalists in Formosa was to keep the Korean war from spreading to Communist China, there has not been a revision of policy. Communist China now is fighting the United States and its United Nations allies in Korea. The State Department's original reason is no longer valid.

Besides the Nationalist troops in Formosa, Chiang would have available a large following in China itself, if he were backed by the United States and the United Nations. Representative Martin thinks he might double the size of his force once he reached the mainland; that the United States would be able to withdraw gradually from its role as principal opponent of the Chinese Communists.

Representative Martin will be waiting for an answer. So will all other Americans who reserve the right to believe the State Department should be held strictly accountable for policies which do not make sense.

Closing Up The Record

UNTIL the conviction of William W. Remington on a charge of perjury for testifying under oath that he never was a Communist, there still was a possibility that Harry Truman might have been right when he blasted congressional Republicans for "red-herring" tactics.

It was the Remington case which provoked Mr. Truman into making that charge, midway in 1948. He was defending his administration against the growing suspicion that it had harbored employees of questionable loyalty. On the advice of his attorney general, Tom Clark, he refused to let congressional investigators see Remington's employment records.

Early in 1949, Remington was given a clean bill of health by the government's Loyalty Review Board and reinstated in a \$10,300 job in the Department of Commerce, with \$3,000 in back pay to assuage his hurts. It was not until last May that Secretary of Commerce Sawyer, influenced by new testimony casting suspicion on Remington, announced his suspension from the department. A few days later, Remington testified before a federal grand jury that he never had been a Communist and submitted his resignation. It was this testimony which led to the perjury charge and his conviction.

A Difference Of Opinion

IN THE Saturday Evening Post's well-documented review of Senator Taft's successful campaign for re-election, one of the strong influences was found to be voters' reaction from the tactics of Taft's opposition, principally the labor union politicians.

As was evident during the Ohio campaign, the senator made votes for himself by telling voters at every opportunity what his opponents were doing. Their tendency to tell labor union members what to think, next to his reputation for doing his own thinking, was Taft's strongest asset.

Americans instinctively fear anything which smacks of domineering. As Senator Taft said in his speech to Illinois Republicans last Saturday night, "True progress can be achieved only if we maintain the liberty of the individual and of the family to think their own thoughts and live their own lives, liberty of men to choose their own occupations and their businesses and run them free of bureaucratic domination."

Senator Taft believes firmly in differences of opinion. Some of his most important principles can be traced back to differences of opinion which caused him to change his mind. He thinks that is the fundamental secret of freedom—to be free to make up your own mind after listening to all sides of a question. There is no party line to be followed in that kind of a government.

The Road To Riches

IF WAGE RATES are the sole source of satisfaction, it's always been a large puzzle why a great wave of contentment doesn't descend on the land at the end of the big strikes, or, in the case of General Motors, the completion of a five-year plan.

Somewhat, it never works out that way. But along comes a story, such as we printed Wednesday, about a man and his wife who managed to put together a fortune of \$100,000, although he never earned more than \$25 a week in his life. They lived frugally, invested in securities, never bothered about keeping up with the Joneses. The incident recalled to the neighbors an old saying: "It isn't what you earn; it's what you don't spend."

Behind The News

By George Sokolsky

Is Another 'Pearl Harbor' Inquiry At Hand?

THE GREAT DEBATE is to result in hearings before the Senate. A terrific array of brass is to be called—in uniform, be-decked and emblazoned.

The principal witnesses will be Doughboys—infantrymen, ground troops, Generals Marshall, Eisenhower and Bradley. The Navy had a tough time when Louis Johnson was secretary of defense. Now it is the Navy and the Air Force who are silenced.

But infantry alone will not win a war. There are many effective, if not more effective functional groups—the Air Force, the Navy, artillery, cavalry (tanks), to say nothing of all the new scientific and psychological agencies.

Have you noticed how silent these branches have been? Have you noted that during the whole of the great debate General Hoyt Vandenberg of the Air Force, who used to be quite vocal, has been silent as though he did not exist? And what has become of Admiral Forrest Sherman? Have these services no views to pass on to the Congress and to the American people?

WELL, I have been asking these questions and I was told that effective Dec. 12, 1950, "no speeches or public announcements will be made by armed forces personnel until clearance has been obtained. Copies of future speeches, statements, or press releases concerning foreign or military policy must be submitted to this headquarters (Pentagon) for proper clearance."

"All personnel, particularly those overseas, will refrain from making public statements or communicating with news media on military or foreign policy without prior clearance with this headquarters. The purpose is not to curtail the flow of information to the American people, but to insure that the information is accurate and in accord with the policies of the United States government."

Such instructions have not been unusual in recent years, but that last sentence is political nonsense. The head of the Air Force or the Navy is accurate when he responsibly testifies before a congressional committee. Why should one assume that General Vandenberg or Admiral Sherman, so testifying under oath, is less responsible and accurate than Generals Marshall, Eisenhower or Bradley? Does the infantry have a monopoly of the truth? There was a time when all military men sang together as perfectly as a Fred Waring glee club. But apparently those days are gone.

IT HAS come to me, in an indirect manner, perhaps irresponsibly, that the following instructions were added to those of Dec. 12:

"Officers may, upon their own responsibility and at their own discretion, make remarks concerning unclassified matters of foreign or military policies to selected groups for background purposes only and not for publication, without obtaining prior clearance; provided that their remarks are confined to the bounds of policies which have been publicly announced by the White House, state or defense departments."

In other words, what is permissible is that which has been politically cleared. While Congress gropes for the facts so that it may pass the legislation required to defend this country, high-ranking officers of our armed services have been gagged, by orders, requiring them to watch their politics.

Until these orders are withdrawn, these men may not speak truthfully if the truth contradicts policy. They are soldiers and are required by their profession to obey their superiors in a chain of command reaching upward to the President, who, while a politician, is commander in chief.

THEREFORE, the Congress may never have the whole truth in open hearings. That does not mean that human nature, being what it is, does not in some manner, if only by rumor, assert itself.

For instance, no matter how great an effort was made in Washington to lower General MacArthur's prestige by calling the evacuation of Hungnam a Dunkerque, it never was that. Although General MacArthur has been criticized by American and British politicians for being too precise about the size of the Soviet Chinese army, it is true that General Lin Piao had an army of 500,000 men, even if knowledge of that fact did embarrass the appeasers in the United Nations. Such facts do get out.

A student might even make a comparison between the Anzio campaign in World War II and the Korean campaign, and the infantrymen would be very embarrassed.

But rumor and gossip do not serve as an honestly-conducted congressional investigation can. The question then is: Shall we have a full hearing or another Pearl Harbor investigation, or worse still, another Tydings committee?

Challenge To Mature Minds

We're Mastering The Auto; A-Bomb's Next

MECHANICAL control of the automobile is excellent, but social control through laws, education, custom and personal ethics has lagged far behind, Sidney J. Williams told the recent annual meeting of the Society of Automotive Engineers in Detroit. Mr. Williams, assistant to the president of the National Safety Council, declared that most people do not even understand the physical laws of motion and energy as they apply on the highway.

We mistrust our statute laws and regard enforcement as a game between driver and cop, in which may the best man win. We think of driving as an inherent right, although legislatures and courts repeatedly have declared it a revocable privilege.

"Our whole attitude is adolescent. We blame the teen-agers for the very things we do ourselves. As individuals and as organized society we have not grown up to our motor cars," he said.

The speaker emphasized that collisions on the roads of today have become traffic problems par excellence, but he said they are no longer technological but psychological.

"The old challenge of physical distance has been transmuted into a new challenge of human relations."

tions between drivers who, having learned how to annihilate space, thereby have put themselves in constant danger of annihilating one another.

"If we have not yet learned how to live with the automobile, which as a rule kills only one or two at a time, how can we hope to live with the radioactive atom which is 100,000 times more deadly?" Mr. Williams asked.

"A devout and simple person might say that the Lord had given us the automobile as a test, a proving ground on which, through a few decades of relatively harmless experimentation, we might develop social mechanisms to cope with both the machine and the atom; or, failing to develop them, face a deserved extinction."

"For such a test the motor car is ideal because of its universal use, its many blessings, its great mechanical power and the inevitable temptation to misuse that power."

"Motor transport has in fact severely tested both us and our institutions. If we have not graduated cum laude, neither have we been flunked out of the course. We slowly are learning how to live with the automobile. And what we have learned may even help us to live with the atom," he said.

It's Nothing New

Prices, Wages Worried 'Em In 1776 Too

GEORGE WASHINGTON had just licked the Hessians at Trenton, N. J. And what were Americans worrying about?

Price and wage controls. The date was Dec. 31, 1776, and a wage-price ceiling law was adopted by the General Assembly of the state of Rhode Island and Providence plantations.

A copy of the old law has been unearthed from the archives of the Brooklyn Public Library.

The law denounced "the unbounded avarice of many persons" and said war profiteering "disheartens and disaffects the soldiers who have nobly entered into service" and whose pay "is not sufficient to subsist them."

The price and wage ceilings were set in shillings and pence. Here are some of the "ceilings" of that day in current monetary value:

Milk, nine cents a gallon; rum, 63 cents a gallon; tobacco, five

cents a pound, turkeys, nine cents a pound.

Wages—for carpenters, 70 cents a day; barbers, 3½ cents a shave; tailors, 42 cents a day.

Other items: lodging for a night, five cents; "dinners" at tavern for travelers (not soldiers) of other articles equivalent, ex-bolled and "roast meat, with other articles equivalent, exclusive of wine", 21 cents.

Odd Facts

Sharp changes in the bodies of birds take place just before they migrate, usually involving deposition of layers of fat.

The last eruptions of the Lassen Peak volcano in California occurred between 1914 and 1921.

No adequate explanation has been found for the annual migrations of birds and animals.

New Dawn In Europe

Confusion Of Truman Rule Goes On

By Walter Lippmann

IT COSTS much sweat, and a few tears, to work out who agrees and who differs with whom in the great debate.

Subject to correction later when the hearings have produced their results, it is fair to say, I think, that there are no irreconcilable differences in the views of Taft, Dulles and Eisenhower, the more one studies their remarks, the more it appears that their differences are matters of emphasis rather than of substance.

In the meantime, I have found it helpful to realize that the whole business is difficult to follow because there are two debates going on simultaneously, each dealing with a great subject.

The first has to do with the rights and powers of the president. The second has to do with the strategic question of how—not whether—western Europe is to be made secure against invasion.

The extraordinary thing about this debate is that thus far the two men who ought to be leading it—the President and his secretary of state—have refrained from giving the country an informative and reasoned description and explanation of the project.

No one contradicted Senator Taft last Thursday when he said in the Senate that Congress had been unable to obtain definite knowledge about whether or not we had made a commitment at Brussels, or about the size of the American army that the administration was proposing to send to Europe, or about "the status of General Eisenhower himself" in relation to the other Atlantic governments.

BUT IF all of that is unclear and indefinite, Congress does have before it a clear and definite proposal to conscript 18-year-old men for 27 months.

The contrast between the heavy

concrete sacrifices which Congress has to vote and the generalities and abstractions in which the President and his secretary of state communicate their purposes is striking.

The issue of the President's powers has arisen and will surely not easily be brushed aside in this Congress, because the administration in effect has taken the position that Congress must provide the men and the treasure, but that the President then has full powers to decide where to "deploy" them.

This is not a tenable position. If the President were a wiser man than he is, he never would have dreamed of questioning the right of the Congress to participate in the unprecedented project of placing an American standing army in Europe and of merging it in on international army.

He not only would have sought the advice of Congress, but he would have insisted from the outset that Congress share his responsibility.

Because the President failed to do that, he laid himself open to and invited the kind of attack which Mr. Taft delivered at the Lincoln Day dinner in Chicago. It is that Harry S. Truman is too impulsive and not careful enough in his judgements to bear alone the responsibilities of life and death.

On Sunday, Governor Dewey came out strongly for the President's position. "I do not believe," he said, "that the deployment of our troops is a matter of congressional action. I believe the deployment is a matter for the experts and on that I will trust General Marshall, General Eisenhower and the chiefs of staff rather than anyone else." I wonder whether this is Governor Dewey's considered view.

CAN HE argue seriously that the project of an American standing army in Europe, involving

perhaps three-quarters of a million men, can be called a mere "deployment" like sending troops to Hawaii, Alaska, or even by putting ground crews at some air strips in Great Britain?

Does not the proposal to place a permanent American garrison on the European continent call for a political decision of the greatest magnitude? Is this not in the substance, even if it is not in the form, a treaty? One need not contend that the decision should be presented as a treaty in order to believe that the administration ought to handle it with the same kind of respect and deference for Congress which it would show if it needed to obtain the ratification of a treaty.

Mr. Dewey, moreover, seems to feel that these decisions will not be made by Mr. Truman, but that they will be made by the "experts" and "on that I will trust General Marshall, General Eisenhower and the chiefs of staff, rather than anyone else."

I myself do not think it is fair to the generals to expect them to take over the very highest responsibility of the government. And we certainly have fallen into an ignoble state of affairs if the elected government were in these great matters to evade its responsibilities and to seek refuge and protection behind the generals.

As a matter of fact, if Mr. Dewey will recall the events of the past year, he will find little in the record to warrant his confidence that the military "experts" will decide military questions and that the civilian "experts" will decide the political questions.

One of the striking characteristics of the Truman administration has been the confusion which weakness and haphazardness have brought into the relations between the civilian and the military authorities. Many things that we now regret, many things that we may perhaps live to regret, arise from that confusion.

Sea Mystery

SCIENTISTS at the Woods Hole (Mass.) Oceanographic Institution still are trying to determine the nature of a mysterious, living "scattering layer" known to exist in the Atlantic and Pacific oceans.

Dr. John B. Hersey, a member of the institution, said: "We know it consists of some kind of animal life. It is quite probable that all or most of it consists of zooplankton, that is, minute animals, most of them shrimp-like."

The "scattering layer" was detected during World War II by scientists using a device called an "echo-sounder."

Dr. Hersey said there may be several layers, one above the other, and that the size of the objects in them can be roughly determined by using different features of the "echo-sounder."

He said the "echo-sounder" gives us the possibility of tracing schools of fish, but more must first be known about the sound-scattering properties of the marine life in the scattering layer."

'Make Mine Goo'

By Inez Robb

Drama At The Dinner Table

NEW YORK

"AND WHAT is this goo we are eating to-night, if I may make so bold as to ask?" the head of the house wanted to know, as he poked a serving spoon into the casserole in front of him.

"Sh-h-h, you mustn't hurt Mattie's feelings!" I cautioned, nodding toward the kitchen door and the lair of our household jewel. "She made it to surprise you."

"She has succeeded beyond her wildest dreams," my spouse said grimly. "It seems to have the consistency and feel of boarding house hash without its flavor. Have you plumbed its secrets?"

"Well, my goodness," I said, "you don't have to be so picky! You're the one who's been screaming his head off about the high cost of living and being in bondage to the butcher."

"I may have lifted my voice a decibel or two," said the head of the house, with dignity, "but not loud enough to merit this. Come on, give."

"This is something Mattie read in the paper," I said, with equal dignity. "It was a recipe in an article called Stretching The Food Budget To Beat Inflation."

"Only inflation?" asked my spouse. "This beats the devil!"

"OH, SHUSH!" I said. "You yelled so loud about the price of those lamb chops two days ago that poor Mattie said she was going to try this meat substitute. The recipe said to take a cup of rice, a cup of water, two bouillon cubes to give it that meat flavor, a half cup of chopped peanuts, a half cup of seeded raisins, a half cup of grated cheese and any left-overs in the icebox."

My spouse tasted the result critically once more.

"Since when have we been keeping old boot tops in the icebox?" he demanded. "Or," he asked, taking another cautious bite, "is this the subtle flavor of an old inner tube I detect?"

"Well, if you hadn't made so much fuss about the lamb chops, Mattie and I wouldn't have tried so hard to find a meat substitute," I said. "If I questioned the wisdom of buying gold-plated lamb chops, it is only because I don't want to go to the poor farm before my time," my spouse said. After all, \$2.34 for three lamb chops! Who do you think we are, the Rockefeller's?"

"Please, darling, please!" I cried. "Remember your blood pressure!"

"Two dollars and thirty-four cents for three lamb chops!" he muttered.

"YES, BUT they were double lamb chops," I said. "I distinctly remember you telling Mattie double or nothing."

"That's sure what I got tonight—nothing," he said gloomily, pushing his plate away. "I can distinctly remember when we were first married that a whole leg of lamb—"

"Only cost \$2.34," I finished. "But that was 21 years ago and those days are gone forever." "All right, all right, we can't afford lamb chops," my spouse snorted. "But is there any reason we can't have a good, nourishing stew like other poor people?"

"Only the cost of stew meat!" I replied. "The meat in that stew we had last month cost \$2.14 and the one we had last week, after the rollback in prices and wages, added up to \$2.57. Same meat, same quality, same quantity, same stew."

The head of the house shuddered visibly and attacked the contents of the casserole. "One more government rollback," he said glumly, "and I'll have to settle for goo."

WE CAN USE more immigrants like the woman who came in with a million dollars worth of diamonds in her shoes. But they shouldn't be so quiet about it.

This is the first woman I ever heard of who could crowd any more than her feet into her shoes.

I hear that when she bought them the clerk said "do they pinch you anywhere?" She said, "Not yet, but they may in New York."

She came from one of the busted countries of Europe. She and another immigrant had only two million dollars in diamonds between them.

West Virginia Senate To Vote On 'Fire Boss'

Clearing Of Galleries In Hot Fight Brings Protest From C.I.O.

CHARLESTON, W. Va., Feb. 15 (AP)—The Senate squared away today for a straight-out vote on fire bosses. The issue is the present system against that the Supreme Court says the law now requires.

An amendment opposed by both coal operators and the United Mine Workers Union was defeated yesterday after the Senate closed its doors and spent 90 minutes in executive session as a committee to study the plan.

Up for final Senate action today is a simple bill to provide that fire bosses who make safety inspections also may perform other duties, statutory or otherwise. In other words, section foremen could continue to serve as fire bosses—as they now do.

A Supreme Court decision, not yet effective, outlaws the present procedure, however, and requires that the safety inspections be made by other than supervisory personnel.

The defeated amendment would have placed the fire bosses under supervision of the state mines department and put only limited restrictions on the use of supervisory personnel for the inspections.

The Senate's action in clearing its galleries for the executive session brought strong protest from U M W leaders. Among those excluded were several hundred coal miners who have thronged the galleries all week to await action on the fire boss bill.

State C I O President John B. Easton said "We in America have condemned Russia's actions in maintaining an iron curtain in not letting the people know what their government is doing. The West Virginia Senate is doing that very thing to us today."

Action on the fire boss bill was the major center of interest in the legislature yesterday.

Governor Patton announced he has signed into law bills to pay the veterans' bonus. Also signed were bills raising from \$10 to \$20 the initial registration fee of registered nurses and giving the agriculture commissioner supervision over rural rehabilitation in the state.

The House completed legislative action on two other bills, which now go to the governor. They provide enabling legislation under the school bond amendment adopted in the 1950 general election. School boards, with approval of 80 per cent of the voters, now may finance bond issues by special levies good for the life of the bonds.

Actor Sued By Wife

LOS ANGELES, Feb. 15—The movies' top actor of 1949, Broderick Crawford, has been sued for separate maintenance by Mrs. Katherine Crawford, the former Kay Griffith of the New York stage. She alleges cruelty, asks for custody of a 3-year-old son and an expected child, for reasonable support and an accounting of community property.

Dulles Claims Japan Doesn't Want To Arm

Sees Difficulties In Way Of Pacific Pact Urged By Australia

CANBERRA, Australia, Feb. 15 (AP)—State Department adviser John Foster Dulles said today Japan is "intensely pacifist in sentiment" and does not want to be rearmed.

In Canberra for four days of talks with Australian and New Zealand leaders on the possibility of a Japanese peace treaty, Mr. Dulles told reporters:

In Japan, I received thousands of communications from individuals and organizations. All pleaded against rearmament."

Mr. Dulles reiterated that Japanese Premier Shigeru Yoshida had welcomed a security arrangement which includes maintenance of U.S. forces in Japan as a temporary measure. But, he said, long-term security for Japan might be worked out as part of a general United Nations security program.

The American envoy said he expects to have further discussions on the possibility of a Japanese peace treaty with Soviet U.N. representative Jakob A. Malik in New York. The main difference of opinion between the United States and the Soviet Union is whether Japan is to be left without the possibility of defense—or whether some defensive arrangement can be made inside or outside a treaty, he added.

"Obviously, the Soviet Union would prefer that Japan be left a vacuum of power into which she (Russia) could readily move as she moved into all power vacuums left in Europe," Mr. Dulles declared.

He said the United States foresaw difficulties in the way of a Pacific defense pact proposed by Australian external affairs minister Percy C. Spender, but that he had come here with an open mind to listen sympathetically to the proposal.

Bureau Solves Problem Of Mother-In-Law

CHICAGO (UP)—Now you can refer to your mother-in-law as "the hired girl" and get away with it—sometimes.

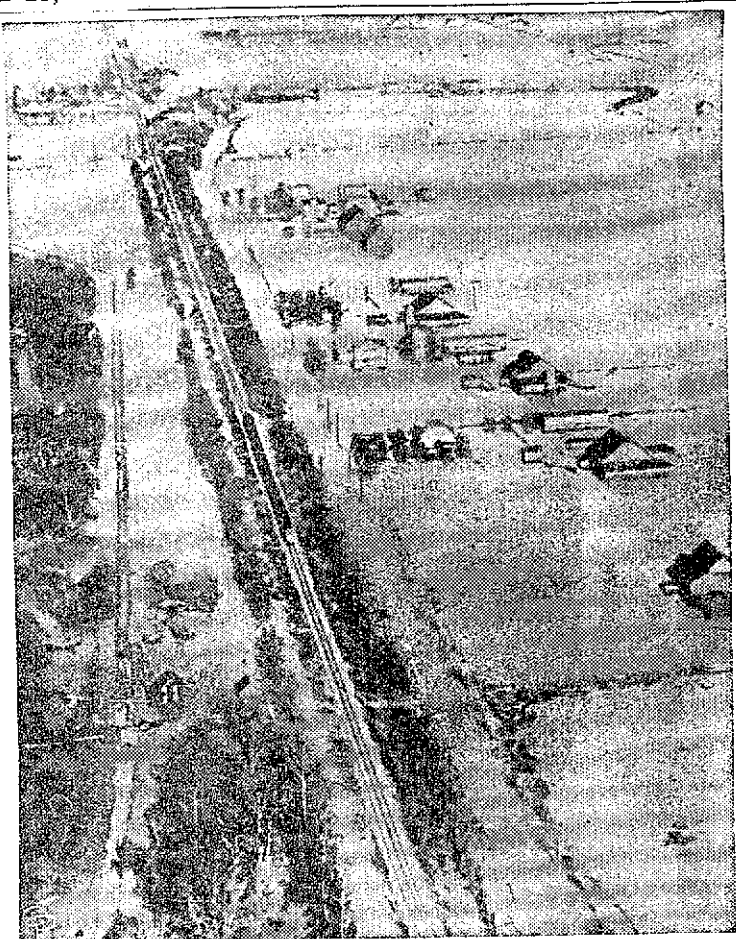

The word came from Albert A. Kuhl, Chicago regional representative of the bureau of old age and survivors' insurance which supervises the social security program.

Mr. Kuhl said that under the new laws, a mother-in-law may be classified legally as "domestic help" and be qualified for a pension under social security.

There's a catch, however. To call the mother-in-law a domestic, you have to pay her a salary.

'Land Version Of Pearl Harbor'

Yanks Learn Lessons Hard Way From Enemy

By HAL BOYLE, Associated Press Staff Writer
NEW YORK, Feb. 15—The Chinese have probably done more to improve the American Army than anything since the invention of the Garand rifle.

This odd contribution came as a result of their entrance into the Korean war last fall.

"That served as a kind of land version of Pearl Harbor in waking our country," said one staff officer. "And it has provided us with a proving ground in ways and means of fighting a modern Oriental foot army."

The big lesson the Chinese taught immediately was this: Big guns alone won't defeat masses of people already disciplined by their leaders to accept death.

The American infantryman has learned he cannot wait in a fox-hole and expect his own artillery to pulverize the foe before him. Artillery can't do it alone any more than strafing planes. So the Doughboy has become more resourceful in attack.

He is developing again the kind of initiative for which his ancestor—the American frontiersman—was famous. He has taken his bayonet out of the sheath strapped to his leg and put it back on his rifle where it belongs. And he is using his bayonet more.

Everyone knows that the enemy strongly outnumbers the United Nations forces in Korea. The term "hordes" is widely used.

What most civilians fail to realize, however, is that even when one American division is matched against one Chinese division the American division is outnumbered in a vital respect—riflemen.

The rifleman is still the focal man on the battlefield. But a division of 10,000 Chinese actually can muster twice as many rifleman as an American division.

provides more of these services than the American army. But they take a lot of manpower in each division—truck drivers, dentists, medics, chaplains, special service staffs, clerks and cooks.

The Chinese soldier goes into battle expecting little—and getting nothing except what he carries on his own back. He is just a human animal under orders. And that tradition enables a Chinese division to use most of its troops as riflemen.

Couldn't an American division do the same thing?

"It could if we made our men forage off the countryside, gave them nothing but weapons and ammunition and let the badly-wounded and the dead lie where they fell," said one officer. "But that is against our entire traditions as a people. And if we did do it, we wouldn't have an American division in the field—it would be, in effect, a Chinese division."

What is the solution then? Some officers feel the answer is for the American army never to engage in a full-size land war in Asia. They feel the Oriental powers have too great a superiority in manpower and any war against them should be waged with sea power and air power.

But others think that as a result of the lessons learned in Korea—ever closer collaboration between our tanks, artillery, infantry, tactical aircraft and naval vessels—the American armed services can defeat mass Oriental armies by aggressive teamwork.

The American infantry has developed new techniques of night fighting and methods of keeping the enemy off balance by hit-and-run raids. The Doughboy today is a more resourceful soldier in every way than he was a year ago. He's more willing to come to close quarters with the foe.

For that he has the Chinese to thank.

a Senate banking subcommittee on the practices of the multimillion-dollar government lending agency.

The subcommittee, which Mr. Fulbright heads, recently issued a report saying it has evidence that certain R.F.C. directors had yielded to outside influence in approving loans.

The report, labeled asinine by

President Truman, named White House aid Donald Dawson as among the outsiders it said exercised considerable influence over three of the five directors.

To buttress its position, the subcommittee plans another round of public hearings dealing with R.F.C. operations. Mr. Fulbright said these probably will start Tuesday or Wednesday.

Mrs. Robert Futhy conducted the devotions, and Mrs. Ridge presided during the business. The next meeting will be March 13.

Group pictures of Girl Scout Troop 32 were taken by Mrs. Agnes Barry of East Liverpool at its meeting Tuesday night in the American Legion Home.

Mrs. Norman Gregory, leader, and Mrs. R. D. Watkins, co-leader, were in charge. The business meeting was in charge of Susan Kay Henry, president.

Newell Social Notes
The Women's Society of Christian Service of the Methodist Church made plans for several activities when it met Tuesday night at the home of Mrs. Rhodda Lakin, 508 Grant St.

The group will pay half the cost of the new communion set for the church. Mrs. Merle Scott was named chairman for the newly-organized flower fund and a discussion on secret pals was held. A bazaar has been scheduled for early fall. Mrs. Lakin, president, conducted the business.

Mrs. W. A. Stackpole led devotions and the program and Rev. T. F. Chilcote offered prayer. The 98th Psalm was read by Mrs. Rhodda Coffman.

Group singing followed and the topic discussion was "The Health of the American Indian". Mrs. Lakin told of the life of Helen Keller.

Eleven were present and the hostess was assisted by Mrs. Della Baker and Mrs. Stackpole.

The next meeting will be March 13 with Mrs. Sue McGown, 508 Jefferson St.

Hotpoint Electric Range

Once you cook on this revolutionary new range you'll immediately see how easy cooking can become and how much better every meal tastes. Push-button controls aid in setting temperatures exactly. Colored lights show you exactly which units are on—and the exact cooking speeds.

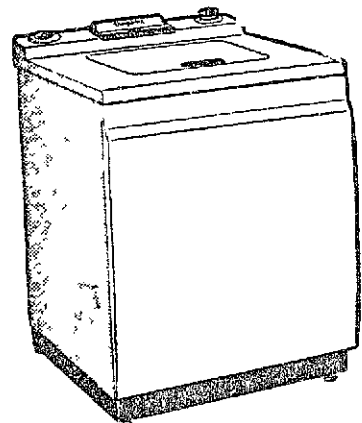

Hotpoint 8 Cu. Ft. Super Stor With Across-The-Top Freezer

Full 8 cu. ft. capacity with spacious freezer across the top. Hotpoint defroster dial tells you when to defrost. Every added measure of convenience has been added to give you the finest in refrigeration. Three handy shelves in the door have been added for bottles and jars. Butter compartment keeps butter fresh but not frozen hard.

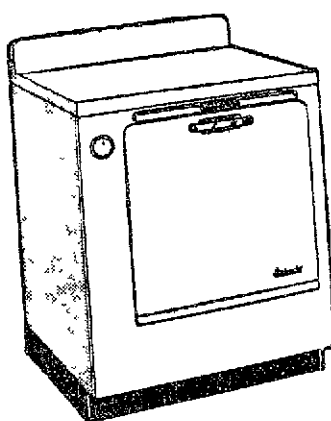

Hotpoint Automatic Washer

Agitator washing action... Wond-r-dial Controls everything... overflow rinse lifts soap scum and dirt over the top, not through clothes. Porcelain tub is self-cleaning, beautiful for life. Sediment ejector automatically expels dirt solids out of washer and down the drain.

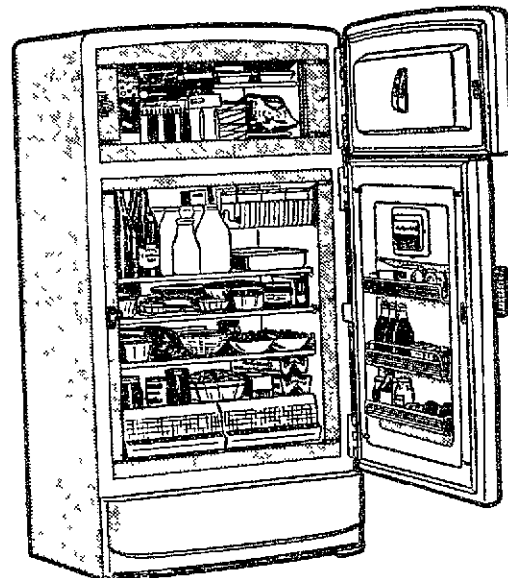

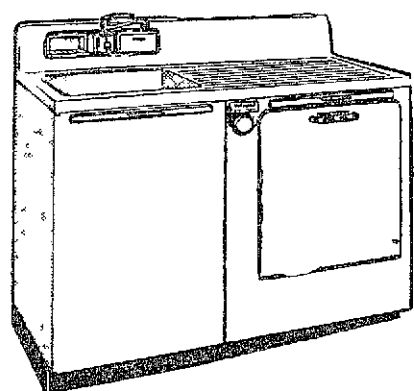

Dish Washer

Double washes, double rinses, dries electrically. The only dish washer with front opening and top-spray action. Dishes hygienically washed without greasy, unsanitary disclaths. Daily cost of dishes for the entire family only four cents.

Hotpoint Dishwasher Sink

Hotpoint's automatic sink with dish washer makes kitchen work easier. Full 24" cabinet sink with garbage disposal unit shreds garbage, washes it down the drain eliminating a messy garbage can. Dishes are washed automatically and dried electrically saving you many hours of endless work each week.

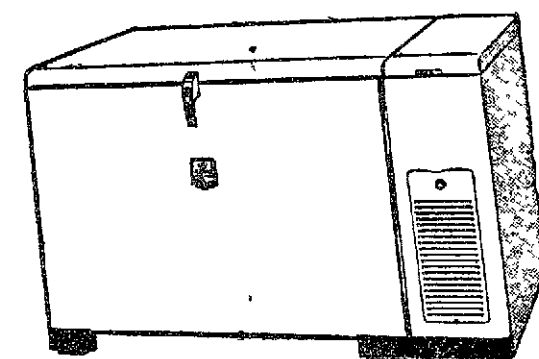

Hotpoint Home Freezer

With a HOTPOINT FREEZER in your home you'll soon notice the difference in your food bills. By buying and stocking your freezer you save in every way. Pies, cakes... in fact all foods remain fresh in this luxurious freezer. Large metal baskets inside can be packed full of foods today to be eaten when the season changes.

Hotpoint Super Stor Combination Refrigerator-freezer

Now you can own a refrigerator and a freezer both combined in one unit. Separate temperature controls for each section. Separate doors allow you to use from one unit without entering the other. Shelf space and butter compartment have been added to door giving extra storage space.

Union Charges Railway Stall

Claim Carriers Save Four Million A Week

WASHINGTON, Feb. 15 (AP)—Four rail unions asserted today that the nation's railroads are saving four million dollars a week in proposed wage increases by insistence on changes in operating rules which have deadlocked peace talks.

A spokesman for the unions said the 25-cent hourly increase for yard workers and 10 cents for those in road service, plus the 40-hour work week without loss of pay, would cost the carriers more than 200 million dollars a year, or four million dollars a week.

The increases had been agreed upon at the White House Dec. 21, but the unions' local leaders later rejected that pact.

"They have been insisting on rules changes before anything else can be discussed," the union spokesman said. "This has paid off for the carriers over the last two years, because we haven't got a settlement yet."

The unions declared "we cannot forever sit on the safety valve." They referred to "the bitter resentment of our members over the discriminatory treatment they have received" by not having had a wage increase for two years.

The carriers, however, say they have tried without success for 15 years to get the operating rules overhauled to "eliminate the featherbedding which has cropped up in the industry and to improve operating conditions and speed railroad service."

"Each time the unions have said the question should be put off—that it was not then the proper time to take up rules," a spokesman said.

Health Office To Set Up Sanitary Dump Practice

The County Health Department will take steps tonight to establish sanitary dumping areas and collection practices in the General Health District.

Representatives of village councils and township trustees will meet with the health board at 8 in the Lisbon headquarters on West Washington St. Garbage and refuse collectors also will attend.

Dr. Robert M. Dunlap, health commissioner, said the department wants to license the garbage collectors and the operators of sanitary services—cesspool cleaners—so their methods will come under health ordinances. The sanitary service men will meet with the board Friday at 8 p. m.

Ferguson Urges Closer Screening Of U.S. Workers

WASHINGTON, Feb. 15 (AP)—Senator Ferguson (R) of Michigan today urged President Truman's loyalty review board to insist on even closer screening of federal employees.

The Michigan lawmaker applauded the board's recommendation that Mr. Truman authorize

the firing of workers or refusal to hire in cases where there is a "reasonable doubt" of loyalty. At present an actual showing of disloyalty at the time the issue is raised is required.

"The board's recommendation is a step along the right road," Mr. Ferguson told reporters, "but it doesn't go far enough."

"The board also should insist on the right to subpoena documents and to take testimony under oath

as a safeguard against perjury. It also should be authorized to get rid of employees who are security risks and not be confined to the question of loyalty."

Mr. Ferguson is a member of a Senate judiciary subcommittee recently set up to check on subversive activities.

Are Your Toes Curling Up Girls? Relax Your Girdle!

OKLAHOMA CITY, Feb. 15 (AP)—Girls, take it from an expert, your girdle may cause your feet to ache.

That's what Dr. H. L. Collins, of Columbus, O., told the South-west Chiropractic Congress meeting here.

Dr. Collins says women would have fewer foot worries if they didn't hook their nylons so tightly to their girdles. The tug curls up their toes, he contends.

The foot expert claims some women get ingrowing toenails and other disorders because of the practice. He advises buying hosiery a half size too big and fastening supporters closer to the top of the stockings.

Ford Gives Million To Conference Of Christians, Jews

NEW YORK, Feb. 15 (AP)—The Ford Motor Co. fund has given one million dollars to the National Conference of Christians and Jews for a new headquarters. The gift is largest ever received by the 23-year-old conference.

Henry Ford II said in a letter to Dr. Everett R. Clinchy, conference president:

"It seems to us that there are few causes more worthy of assistance today than one dedicated to the elimination of bigotry, of racial, religious and other differences in a free society."

Dr. Clinchy called the gift "a contribution of major importance in the mobilization of science, education, industry and religion

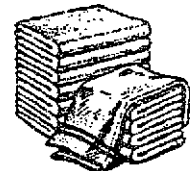

to set men free from the totalitarian chains of tyranny and exploitation."

The money will be used for financing the purchase, remodeling and maintenance of a building on east 46th St. in Manhattan. The remodeling is expected to be completed next summer.

Mr. Ford suggested that \$200,000 of the gift be set aside in a trust fund for maintenance.

Gas Station Man's Aches and Pains Leave Completely After First 3 Bottles Of Hadacol

Father helped, too, who also had deficiencies of Vitamins B₁, B₂, Iron and Niacin.

Wesley Scallions, energetic young gas station attendant in Peoria, Illinois, tells how HADACOL keeps him on the job. Wesley Scallions has this to report: "I took HADACOL upon the advice of my father who has taken it regularly for some time. He could not eat, was unable to get around, lost sleep and was generally run-down because he had these deficiencies. My brother who is a doctor recommended HADACOL to Dad. Since taking HADACOL, Dad has been feeling like a different man; he now has a hearty appetite, sleeps well and gets around once again on his own.

"I have had pains in my right arm and legs due to these deficiencies. I lost many days of work until I started to take HADACOL. After my first three bottles the pains left me completely and now I work every day without having any pains. I am a gas attendant and need full use of both arms and legs in my line of work. Thanks to HADACOL, I can now perform my job satisfactorily and feel fine."

That's the kind of product you've been wanting—the kind you should buy and start taking at once.

Many doctors recommend HADACOL. It is also wonderful for stomach disturbances (gas, pain, indigestion, bloating, heartburn) and a general nervous run-down condition when due to such deficiencies.

Be fair to yourself! If you have such deficiencies—why go around feeling half-alive—a burden to others when you can get this great HADACOL at any drugstore. Remember—HADACOL must help you or your money back. Trial-size bottle, only \$1.19. Large family or hospital size, \$3.39.

In Case Of Emergency

City Radio 'Hams' Ready For Civilian Defense Duty

Although no formal organization exists, five East Liverpool men stand ready to aid in keeping the city from being isolated in the event of an emergency.

They are amateur radio operators, better known as "hams" who have contacts throughout the world.

Dean of the local "hams" is Walter "Red" Kell, 424 West Fourth St., who has been licensed since 1926.

The others are William Sieben-thal of Glenmoor, Ross Grimes of Kent St. and James Kind of Orchard Grove Ave. Thomas De-Ville, 1060 Oak St., is licensed but hasn't operated his station for several years.

All will play an important role in the Communications Division of the Civil Defense program now being organized.

In contrast to World War II "ham" stations were closed for the duration, plans now are being made to reserve certain amateur frequencies for CD emergency use.

Mr. Kell believes only stations connected with the CD program will be allowed to operate.

Both Mr. Kell and Mr. Grimes served as monitors at Federal Communications Commission stations during the war. In event of a new war, Mr. Kell expects to be called back.

Attlee Regime Faces Big Test

Left-Wingers May Bolt In Vote Today

LONDON, Feb. 15 (AP) — Prime Minister Attlee's regime faced its most critical test today as left-wing Laborites threatened to bolt ranks in a no-confidence vote on the government's handling of Britain's rearmament program.

The showdown will come tonight in a House of Commons vote on the no-confidence motion introduced last night by Winston Churchill.

It is particularly critical because the government, with a margin of eight in the House, is threatened with defections of some 20 left-wing Socialist MP's who have been muttering for the last three months that plans to rearm Britain are contrary to Socialist principles.

The government has threatened any Socialist MP who abstains from voting with withdrawal of party support and has even ordered six MP's who are ill, to show up for tonight's vote.

The big question in Commons lobbies today is "Will Attlee's left-wing MP's abandon him?"

Wellsville Glad-Dahlia Club To Meet Monday

Movies on Florida flowers and information on gardening will highlight the meeting of the Wellsville Glad-Dahlia Club Monday night at 8 in the Elks Home. It is open to the public.

The business session with Mrs. Maud Crawford, president, in charge will be followed by movies by Frank Richmond of Chester, and brief talks by Donald Dunlap of Chester, on yards and shrubbery; Raymond Knepfer, roses; Wilbur Cooper of Steubenville, gladioli; William S. Haugh, vegetables, and Frank Shone, flower seeds. A discussion will follow.

The entertainment, arranged by Mrs. Floyd Hall and Mrs. Ruth Fitzsimmons, will include vocal solo by Betty Foley, and tap dances by Charlotte Urie of Wellsville and Bruce Conkie of East Liverpool. A 25-cent parcel post sale will be in charge of Mrs. Frank Shone of East Liverpool.

Mayor To Ask Exam To Fill Chief's Post

Mayor C. C. Leatherberry of Wellsville said he will ask the Civil Service Commission today for an examination for the post of police chief, as Harry R. Dustman's resignation becomes effective today.

Mr. Dustman resigned suddenly Jan. 25 after serving 21 years in the department. He blamed failing health.

Mayor Leatherberry said he will name a new patrolman within a few days. Two men are on the eligibility list, Denton Kevan and Robert Beresford, who is serving in the Marines.

Harry Hurd was named acting chief and with John Hephner and Ed James are eligible to take the exam for the chief's job.

Members of the commission are Rudy Wilk, chairman, B. R. Hamilton and Charles Russell, William Shoub is clerk.

Alabama River Styx Hasn't Any Charon

MONTGOMERY, Ala. (UP) — Motorists leaving Baldwin county, Ala., to go into Escambia county, Fla., on Highway 90, must cross the River Styx.

Currently they are puzzled by a sign which marks the bridge—"Charon retired."

Charon was the ferryman who operated the ferry across the black waters of the underworld into the infernal regions, according to Greek mythology.

A scholar in the Alabama Highway Department painted the sign to indicate there was no ferry across this River Styx.

Horace Mann Group Plans Carnival Feb. 23

The Horace Mann Home and School Association completed plans for its "Carnival of Hearts" on Feb. 23 at a meeting Tuesday night.

The boy and girl in the upper four grades selling the largest number of tickets for the carnival will be crowned king and queen, and the runners-up in the lower four grades will serve as members of the court. Mrs. Herman Babb is general chairman.

A safety film, "You're Driving Ninety Miles," was shown. The fifth grade, taught by Miss Lillian Sosnow, won the attendance banner. Mrs. Clyde Whitehair headed a committee of fifth grade homeroom mothers who served refreshments.

PTA At Wellsville To Mark Founder's Day

Founder's Day will be observed by the Garfield Parent-Teacher Association of Wellsville at its monthly meeting Monday night at 7:30 in the social rooms of the Second Presbyterian Church.

Mrs. Mildred Elliott, program chairman, will talk on the subject, Mrs. Wilbur Terry, Larry Marsha, Billy and Fern Porter will sing, Janet Miller will give a monologue; Portia and Barbara Wolski will sing and Anna Mae and Mary Beth Ring will tap dance, accompanied by Dolly Amato. Past presidents will be introduced.

Refreshments will be served and homemade candy will be sold.

Couple Given Delayed 'Honeymoon' In Jail

Mr. and Mrs. Harry Grimm of Wellsville told Mayor C. C. Leatherberry Wednesday afternoon they had never taken a honeymoon after their marriage about a year ago.

Mayor Leatherberry then presented them with a honeymoon trip to the County Jail at Youngstown for 11 days after fining each \$25 and costs on intoxication. They were arrested early yesterday morning after a disturbance on Clark Ave.

Joe Ammon of Wellsville accompanied the pair to jail after he was fined \$100 and costs on intoxication.

Blowout Causes Crash

LISBON, Feb. 15—A 1949 station wagon driven by Ray Lewis of R. D. 5 crashed into a guard rail on Jerome St. at 2:45 a. m. today, damaging the left front wheel, fender and windshield. Officer Max Gerwig said Mr. Lewis told him a tire blew out.

Health Board Hits Proposed Ohio Measure

Commissioner Asks Council Also Oppose Legislation In House

The East Liverpool Board of Health, at a special meeting Wednesday night, went on record against a proposed state law which would abolish most local health departments after April 1, 1952.

Known as House Bill 95, the measure would reduce from 204 to 96 the number of health districts in the state. It provides for the establishment of a county board in each county, except in the eight counties with cities with a population of more than 100,000. The cities which would have their own departments are Cleveland, Cincinnati, Columbus, Toledo, Akron, Youngstown, Dayton and Canton.

According to Dr. Charles A. Gerace, health commissioner, health work for entire Columbiana county would be directed by a county health office at Lisbon, in charge of a county health commissioner.

The measure, he declared, would abolish "home rule" so far as health matters are concerned and is a move "toward socialized medicine."

He asserted the cost to East Liverpool in maintaining the county health organization would be at least twice that being spent for the city department.

The proposed bill has been referred to the House Health Committee and hearings will be started soon. Delmar T. O'Hara of Wellsville, one of Columbiana county's two representatives, is a member of this committee.

Notice of the board's action will be sent to Mr. O'Hara and to State Representative Clarence L. Wetzel, of Lisbon and State Senator Arthur Blake of Martins Ferry.

Dr. Gerace said he will explain the measure to City Council Monday night and urge it to take similar action.

The bill is to be presented to the Chamber of Commerce, Trades and Labor Council, civic organizations women's clubs and other clubs and groups which the board said should be interested in public health matters.

Minister Speaks To School Group

Rev. Oakley W. Grow, pastor of the Second Christian Church, discussed the "Teachings of the Master" at the Neville Home and School Association meeting Tuesday night.

Further plans were completed for the school carnival March 9, with Mrs. Sally Horgan as general chairman. A donation of \$10 was made to the City Federation of Parent-Teacher Organizations, \$5 to the Red Cross and \$5 to a school revolving fund for use of the school nurse.

Selections by the "Krazy Kitchen Orchestra", a group of housewives in the association, highlighted the program. Mrs. Leslie Thomas sang several solos, Mrs. Catherine Reed and Mrs. Gayle Merriman sang a duet and Mrs. Mae Eisenhuth presented a solo, accompanied by the orchestra. Mrs. Nell Hillyard gave several readings.

Pupils of the second grade, taught by Mrs. Viola Gordon, and the third grade, taught by Miss Marian George, tied for the attendance award.

Fourth grade homeroom mothers served lunch.

27 Inductees Named For County Contingent

Columbiana County Draft Board 16 today forwarded 27 men to Canton for induction.

The group included Harry B. and Herman C. Bender, Salem twins. Others were: Robert E. Cehrs, George Elwonger, Richard E. Schukert, Harold R. Shivers, Elmer L. Steffer, Lorin L. Smith, Garnet E. Wayne, Christian, Edward E. Smith, David Linton, Ralph Taubert, George R. Hales, Edward D. Rhodes, Ray J. Sullivan, Dominic A. Mancuso, David D. Foster, Cyril P. Dever, Daniel J. Babb, Patrick R. McIluff, Robert E. Poutis, Norman L. Johnston, Jonathan Jenkins, Arthur P. Boehm, Bernard J. Briden, Ellis E. Hawkins, Homer L. Pickens Jr.

Meanwhile, the board announced it has received a call for 69 men for induction in March. The tentative quota for pre-induction physical is 94. The board will send 20 men for induction March 2 and 49 on the 20th.

East Palestine Plant

Idled By Car Shortage

EAST PALESTINE, Feb. 15 (Special)—The Adamson Manufacturing Co. will suspend operations today for the remainder of the week because of a shortage of railroad cars.

Officials said the plant uses as many as five or six cars each day to ship the large underground tanks it manufactures.

About 90 men are employed.

U.S. Patience Tied To Atom

Nehru Has Thorium That's Important In Race With Russians

WASHINGTON, Feb. 15 (AP)—Here's one hush-hush reason for this country's policy of patience and kindness toward India:

India has three-fourths of the world's supply of thorium, a mineral that may become tremendously important in the atomic energy race with the Soviet Union, and the U. S. government doesn't want to risk letting this supply fall into unfriendly hands.

The whole subject is shrouded in secrecy, but one government official acknowledged today that India's possession of all this potential atomic material has its effect on American policy.

It may well have influenced President Truman's request—endorsed in principle by former president Herbert Hoover and various other leading Republicans—for a gift of two million tons of wheat to the government of India to help avert the danger of famine.

"While the main intent is to respond to the appeal on behalf of the people of India," the government source told a reporter, "it cannot be denied that India's mineral wealth also was taken into consideration."

Mr. Truman himself, in his grain-for-India message to Congress Monday, noted that India has "substantial mineral resources" and said India's continued freedom is "important to the free world."

What is this thorium? It's a substance extracted from beach sands known as monazite—sands found in Brazil and to a smaller extent in at least three American states, North Carolina, South Carolina and Idaho. But by far the most important deposits are in Tavancore, near India's southern tip.

Thorium itself is not a fissionable material—that is, it isn't capable of producing atomic energy. But by the use of another atomic mineral—the A-bomb substance, uranium 235—it can be changed into fissionable U-233, which also can be used for weapons as well as for non-military purposes.

17th Child For Arcaros
CINCINNATI, Feb. 15 — The Harry Arcaro family now has 17 children. Mr. Arcaro, father of jockey Louis Arcaro, 26, and uncle of the famous rider, Eddie Arcaro, announced the birth of a son yesterday. Pop Arcaro is 50 and his wife Clara is 44.

Sleeps Like a Log!
BY CORRECTING LACK OF VITAMINS B₁, B₂, IRON AND NIACIN

Insomnia from upset stomach, aches and pains, due to a deficiency of Vitamins B₁, B₂, Iron and Niacin, is no fun. It drags you down, wears you out, leaves you peevish and out of energy. But Henry Duke, Route 1, Diamond, Missouri, as so many thousands have found from such deficiencies, has found the answer in today's great HADACOL.

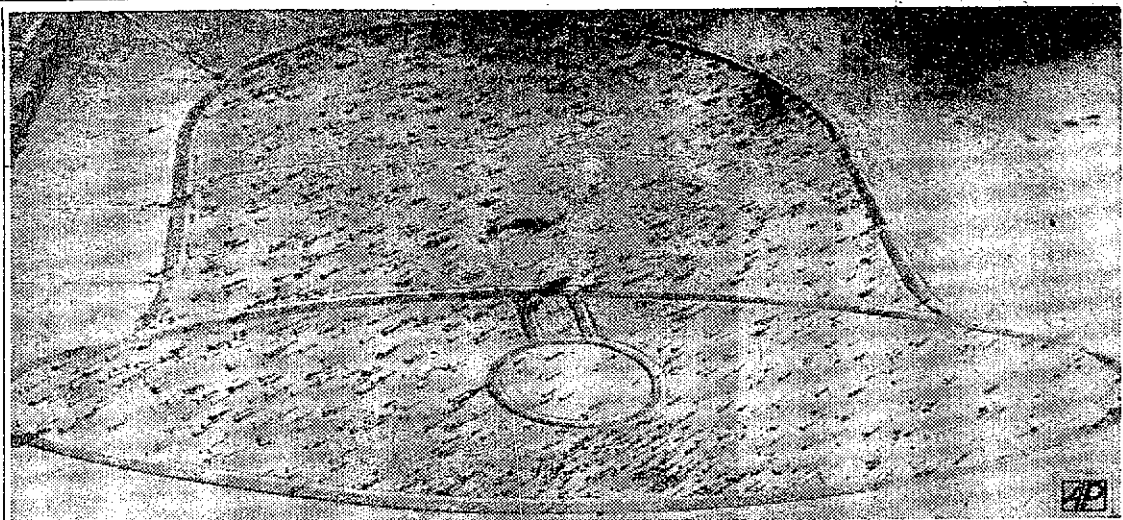

He writes: "I'll recommend your HADACOL. I have used it for some time. Guess I have taken 12 bottles or more and it's great. I couldn't eat or sleep. So, now, I eat plenty and sleep like a log. I really think it's wonderful. I buy a bottle every week. But, I won't be without it. It has helped me all over, and I do praise it. I work at the marble and rock quarry and since I have been taking HADACOL I feel more like working. My age is 56. I would like for everyone to know what HADACOL is and how it helps people who take it."

Old Knee Injury May End Career Of Toscanini, 83

NEW YORK, Feb. 15 (AP)—Recurrence of an old knee injury will cut short the present radio concert schedule of famed conductor Arturo Toscanini, and perhaps end his entire career.

An associate of the 83-year-old Toscanini said the conductor will give a last performance in his National Broadcasting Co. series Saturday night. He was scheduled for two more appearances this season.

An appearance this May in London with the British Broadcasting Corp. orchestra also has been canceled.

This last N.B.C. performance, the associate added, may be the finale of the noted conductor's long career. Toscanini has conducted the N.B.C. orchestra's weekly concert series for 14 years.

Cancellation of the remaining concerts was forced by the recurrence of an old injury to his right knee, sustained in a fall at his home.

"The long hours on his feet are a great strain and he is afraid the leg will buckle," the associate said.

As to suggestions that Toscanini conduct while sitting down, his associate said: "Lots of conductors do that, but never Toscanini." Toscanini now plans to return to Philadelphia for further treatment of his knee.

Post To Sponsor Book

Books For Veterans
Books for veterans in nearby hospitals will be collected in East Liverpool schools Friday in a movement sponsored by American Legion Post 374.

Arrangements have been made between Legion representatives and Superintendent W. G. Fordyce whereby teachers will accept books brought to the buildings Friday.

They will be collected by Legionnaires Friday afternoon and delivered to the hospital at Aspinwall and others for veterans.

Charles Stull, commander, said all kinds of books are desired, preferably westerns, adventure and detective stories and comics. Any person with books to donate are asked to leave them at the Legion home, 1220 Pennsylvania Ave., or call 309 and they will be picked up Saturday.

New-Fangled Electricity Worries War Vet, 104

TAMPA, Fla., Feb. 15 (AP)—Joseph P. Robles, one of Florida's two surviving Confederate veterans, spent his 104th birthday yesterday trying to get accustomed to this "new-fangled electricity."

Since his last birthday, Mr. Robles has thrown out his kerosene lamps and had his modest little home wired with electricity. This little item of electricity is the biggest thing that has happened to him since his 100th birthday, when he received a battery radio set.

Of electricity he says: "I just can't see it. I don't like it." His son, M. W. Robles, grins at this, for he has been employed by the Tampa Electric Co. for 30 years.

'Fake' Officer Butter Beat It

F.B.I. May Be Called In Truck Overload

MEDINA, O., Feb. 15 (AP)—Federal authorities may be called on today to help find a man accused of posing as an Army officer in order to move a load of butter through Medina without paying a \$531 overloading fine.

"If I can't identify the man today," said Mayor John Brown, "I'm going to ask the Interstate Commerce Commission and may be the F.B.I. for help. I hope the man is caught and charged with masquerading as an officer."

Truck Driver Charles Good, 28, of Ephrata, Pa., who was arrested

here Monday while hauling 75,980 pounds of butter from Chicago to Baltimore, is serving out a 15-day jail term on a charge of driving with an overload.

What started Mayor Brown on a sleuthing expedition were a letter and several phone calls he received after Mr. Good's arrest. They were supposedly from one Captain R. R. Vlach of the Army quartermasters market division in Chicago.

The letter and the voice urged Mr. Brown to let Mr. Good drive the butter through to Army camps in Maryland and to drop the fine.

Then Mr. Brown said he discovered the Army had nothing to do with the butter; that there was no "Captain Vlach" interested in the shipment and that the load was for the Atlantic & Pacific Tea Co. in Baltimore.

Another truck driver, J. B. Per-

kins of Kewanee, Ill., delivered the letter, he said. He allowed Mr. Perkins to take the excess butter—25,300 pounds—on to Baltimore.

The rest of the butter, the mayor said, still is here for a pickup by the company Mr. Good was driving for, the Pacific States Refrigerated Transport Co. of Chicago.

He declared the fine has now

KIDNEYS MUST REMOVE EXCESS WASTE

When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exercising or exposure to cold. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's gives happy relief from these discomforts—helps the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

IS CAPITALISM "GOOD" OR "BAD"?

CAPITALISM CAN BE EITHER "GOOD" OR "BAD"

IT DEPENDS ON HOW WELL FREE INDIVIDUALS CAN WORK AND LIVE TOGETHER VOLUNTARILY ACCORDING TO THE LAWS OF HUMAN BEHAVIOR.

WARNING!

ALL THROUGH HISTORY, WHENEVER A GOVERNMENT ATTEMPTED TO PROVIDE GREATER BENEFITS TO MORE PEOPLE BY AND THROUGH CENTRALIZED AUTHORITY,

IT TOOK AWAY MAN'S FREEDOM!

IT LOWERED THE SCALE OF LIVING!

IT FINALLY CEASED TO EXIST!

NEITHER CAPITALISM NOR ANY OTHER FORM OF ECONOMIC LIFE WILL EVER BE PERFECT, FOR THEY ARE ALL OF MEN AND BY MEN... AND MAN IS NOT PERFECT, BUT—

THROUGH CAPITALISM WE CAN LIVE AND WORK TOGETHER FAR BETTER THAN ANY OTHER FORM OF ECONOMIC LIFE—

IF WE IMPROVE OUR INDIVIDUAL CONDUCT AND BEHAVIOR AND ACCEPT OUR RESPONSIBILITY... OUR CHALLENGE FOR A BETTER WORLD.

IF WE USE OUR GOVERNMENT TO PROTECT EVERY MAN IN HIS RIGHT TO LIFE, LIBERTY AND HIS RIGHT TO PURSUE HAPPINESS, SO LONG AS HE DOES NOT INTERFERE WITH THOSE SAME RIGHTS OF ANY OTHER MAN.

Robinson Wins Middleweight Crown With TKO In 13th

HERE'S A REAL FLYING PHOTO-FINISH. James Gehrdes of the Shanahan Catholic Club literally wings across the finish line to beat Meredith Gourdin (lower foreground) of Cornell University in the 60-yard high hurdles semi-final in the NYAV Indoor Games in Madison Square Garden at New York.

W. Va. Tech Favored Tonight; Needs 3 To Clinch Cage Title

West Virginia Tech will be favored tonight to gain one of three additional victories it needs to clinch its first state conference cage crown as Mountaineer fives whirl through a big eight-game card. Tech, 14-1 in league play, entertains Alderson-Broadus (7-10) and a 2-5 Ohio Valley Conference* showing against a loop foe at Morehead, Ky.

West Virginia University survived a late Maryland drive at College Park in the Wednesday headliner to win, 70-64, and push its final Southern Conference mark to 9-3. It was WVU's 15th victory in 22 starts against all opposition.

Other conference action tonight sends Davis and Elkins (10-4) to Shepherd (3-4); Salem (3-10) to Wesleyan (11-5) in an effort to repeat an earlier one-point triumph; Fairmont (7-8) to Glenville (9-7); and Concord (8-7) against Beckley (3-11) at Oceana.

West Virginia State (13-5) continues a southern swing against North Carolina College at Durham, while Bethany (1-14) is at Marietta (9-5).

In additional Wednesday games, Morris Harvey ran its conference mark to 5-8 by stopping A-B, 64-47, to avenge an earlier loss; D. and E. whipped Potomac (5-8) in another conference game, 84-69; and West Virginia State lost its second game in as many nights in bowing to Shaw, 52-47, at Raleigh, N. C.

Wednesday and Thursday night appearances of Lincoln, Pa. University at Bluefield State were canceled.

Tech defeated A-B earlier at Phillips, 74-65. Marshall was too much for Morehead earlier at Huntington, 60-49.

WVU once again lost Mark Workman on fouls—he played less than 11 minutes—and almost blew the Maryland game after leading, 61-39. Workman had 13 points, but Ken Alessi took some of the slack by netting 19.

Lee Bravley of Maryland paced all scorers, however, with 24 points. Workman, third in the nation in point-getting, pushed his total for the year to 552 but his average dropped a point to 24.9.

Morris Harvey led A-B all the way with Jimmy Byrd canning 13 points and Ike Ganim 14. John Butler was A-B's big gun with 10. Skipp Hill and Neil Gutshall, a former Potomac star, scored 48 points between them as D. and E. moved in front to stay early in the third period. The halftime score was knotted at 40-40.

Hill led all scorers with 25 points and Gutshall had 23 as the defending circuit titlists ran their overall mark to 13-7 and kept alive faint hopes of going to the NAIB meet at Kansas City for the second straight year—provided they can win the post-season loop tournament at Buckhannon.

Ted Lauer had 18 points and Walt Devlin 17 for Potomac. West Virginia State wiped out

Golfers Ignore PGA Ban; Play In Mexico

MEXICO CITY, Feb. 15 (AP)—Jimmy Demaret and seven other American professional golfers teed off today in defiance of a PGA ban against playing in the \$7,500 Mexican National Open.

The first of 31 threesomes started medal play at 12 noon (East Liverpool time). Demaret, of Ojai, Calif., and Tony Olgi of Mexico, another favorite, were in the last group.

The Professional Golfers' Association of the U. S. forbade its members to play in Mexico because the tournament conflicts with the PGA-sponsored Harlingen (Tex.) open, which also started today. Demaret and other members of the PGA are playing anyway.

The PGA ordered its members to stay out of the tournament because it was not PGA sponsored, not a "major tournament," and conflicted with the Harlingen Open.

The Mexican Golf Association said the PGA has no right to classify a Mexican tournament as major or minor and that anyway the PGA had approved U. S. participation.

The PGA answered it thought participation would be limited to "one or two name players."

The U. S. State Department took a hand, saying it favored U. S. participation to strengthen bonds of friendship between Mexico and the U. S.

The PGA hasn't taken disciplinary action.

Plenty Of Favorites As Rio Grande Starts

HARLINGEN, Tex., Feb. 15 (AP)—The \$10,000 Rio Grande Valley Open began today with more favorites than you could shake a stick at.

The Harlingen Municipal course with its par 71 is quite short—only 6,095 yards—and the man with the hottest putter probably will be the fellow taking home the \$2,000 first money. But the field of 137—119 professionals and 18 amateurs bulges with fellows who are death on the greens.

Lloyd Mangrum of Chicago, leading money winner of the year and the only golfer taking two tournaments of the winter tour—is mentioned most prominently as the man to beat. But young Jack Burke Jr., of Houston, the defending champion, E. J. Harrison of St. Andrews, Ill., and Doug Ford of Briarcliff, N. Y., who tied for first in the Texas Open, and 10 or 20 others are named by the touring pros as likely to succeed.

Eighteen holes are scheduled daily with the field being reduced to the low 60 scorers and ties tomorrow night.

Ticonderoga Wins 184-Mile Yacht Race

NAASSAU, Bahamas, Feb. 15 (AP)—The last of 17 yachts in the Miami-Nassau sailing race pulled into port today, completing the 184-mile deep-water journey.

First to finish was the Ticonderoga, 72-foot ketch owned by Allen Carlisle of Miami and chartered to Charles Granville of Wilton, Conn.

The "Big Ti", scratch boat in the 13th annual event, crossed the finish line at 5:13:23, yesterday, followed closely by The Caribee, 57-foot yawl owned by Carleton Mitchell of Annapolis, Md.

The Malabar 13, a 53-foot ketch owned by Kennon Jewett of Miami, was third to finish, followed by the Flying Cloud, 58-foot sloop owned by Fred Temple of Toledo, O., and the Revenoc, 45-foot yawl owned by Harvey Conover of Larchmont, N. Y.

Eastern All-Stars Win Two, 60-46, 54-38

"Bevo" Francis led the Eastern Ohio All-Stars of Wellsville to twin victories Wednesday night at the Beacom Memorial gym.

He looped 19 points in the first game as the All-Stars whipped the Lovolovs of Weirton, 60-46, and then bagged 26 in the second when the Pulaski A. C. of Steubenville bowed, 54-38.

The All-Stars will face the Kent State University freshmen Monday night at Kent.

Hiller Signs With Cubs

CHICAGO, Feb. 15 (UP)—Frank Hiller, a 30-year-old right-handed pitcher, today became the 31st Chicago Cub to sign his 1951 contract. Hiller won 12 and lost 5 for the Cubs last year with a 3.53 earned run average. He walked 32 men in 153 innings and struck out 55. Hiller came to the Cubs last winter in a deal with the New York Yankees. His signing led the Cubs with eight players still to come to terms.

Spring Training Opens

Indians' Rookies Begin Showing Stuff To Lopez

TUCSON, Ariz., Feb. 15 (AP)—Thirty baseball rookies—each hopeful of landing a job with the Cleveland Indians—today began showing their stuff for the Tribe's new manager, Al Lopez.

The youngsters will have the training camp to themselves for the next two weeks. Then the regulars arrive and begin getting ready for a four-game exhibition series against the New York Yankees, starting here March 10.

Lopez said rookie hopefuls would play intra-squad games as soon as possible. He believes that will give him and his aides—Jake Flowers and Red Ruffing—"a better chance to size 'em up." "And I hope to find that a few of them are ready right now," Lopez said. "We can sure use a couple of pitchers, and I figure we can use bench strength both in the outfield and infield, so you can see every kid does have a chance to stick."

This jibes with the opinion of Hank Greenberg, the Indians' general manager, who arrived last night. Hank would like to see "some help to back up our starting pitchers" result from the youngsters' drills during the next two weeks.

Ten of the 36 Indians on the current roster—one of the smallest in the club's spring-training history—still have not signed contracts. Greenberg is confident they will by March 1.

Most likely among the 10 to be a holdout is Bob Lemon, the

'No Comment' Says Farley On Baseball Job

NEW YORK, Feb. 15 (AP)—A report that James J. Farley would be elected the next commissioner of baseball brought only a studied "no comment" today from the former postmaster general.

Asked if he had been approached by the committee of four named to choose a successor to Albert B. Chandler, Farley declined to say yes or no.

"All I can say is 'no comment' to all questions," he replied evenly. Farley at present is a highly paid executive for the Coca Cola Export Company.

He has been mentioned frequently as a possible successor to Chandler and was, in fact, a prominent candidate for the office after the death of the first commissioner, Judge Kenesaw Mountain Landis.

The major leagues are to hold a joint meeting at Miami Beach, March 12 to select a commissioner. At the last joint session at St. Petersburg last December the league presidents voted not to renew Chandler's seven-year contract, which expires May 1, 1952.

Sports Columnist Bill Corum said in Wednesday's New York Journal-American that Farley had been offered the post and that "there is good reason to believe he will accept."

"That the former postmaster general and national Democratic chairman has been approached is definite," Corum said. "That he has indicated that he will be receptive after Commissioner Chandler has completed his term, or resigns, also is definite."

"Farley insisted that he would first have to know that Chandler was out. But that if, and when, he was, if the offer from the owners was unanimous, he would take the job."

Ironmen Open Tournery Bid

STEBUNVILLE, Feb. 15 (Special)—Irondale's underdog passers will clash with the third-seeded Dillonvale here tonight in a first round Jefferson County Class "B" tournament game. The tipoff is scheduled for 6:30 at the Big Red gym.

The Ironmen, who didn't meet the Dillons in regular season play, won only four of 15 games during the 1950-51 campaign.

In the second game tonight, defending champion Smithfield, fourth-seeded in the classic, will make its opening bid against Brilliant. And in a third game, the first consolation fray will be staged.

After tonight, action will be resumed Saturday at 7:30 p. m.

N. C. State, Texas A-M Pace College Passers

NEW YORK, Feb. 15 (AP)—Cincinnati and Oklahoma A & M, longtime leaders in major college basketball team offense and defense, have given way to newcomers.

The National Collegiate Athletic Bureau reported today that North Carolina State has displaced Cincinnati in offense, while Texas A & M has moved ahead of the Oklahoma Aggies in defense.

In games through Feb. 10, Cincinnati's point-making average skidded from 78.9 to 77.4, while N. C. State climbed last week a third of a point to 78.0 per game. Cincinnati had held the lead since the first of the season.

Oklahoma A & M, which has been the national leader in defense for the last five years and for 12 of the last 15 years, is only a fraction below Texas A & M. The Texans have given up 44.8 per game, while the Oklahoma Aggies have allowed 44.9.

New Notre Dame Cage Coach To Be Appointed

SOUTH BEND, Ind., Feb. 15 (AP)—A new Notre Dame basketball coach will be named "within two weeks" but the field of more than 30 candidates is still wide open, says Athletic Director Ed (Moose) Krause.

Krause is retiring from coaching the Irish basketball team to devote full time to the athletic directorship.

He told a reporter last night that "about 32" candidates are being considered for the post, including Johnny Jordan, ex-Irish cage star and now coach of Loyola University of Chicago.

LaMotta, Fallen Champ, Takes 'Toughness' Title

CHICAGO, Feb. 15 (AP)—Sugar Ray Robinson today became the first man in ring history to win one championship and lose another all in the same battle.

The rhythmic New York Negro, defeated only once in 124 contests, last night won the world's middleweight championship by hammering durable Jake LaMotta, 160-pound titleholder, to defeat on a 13-round technical knockout before 14,802 frenzied spectators in the Chicago Stadium.

As his right-gloved fist was raised in victory, Robinson automatically relinquished his welterweight crown. He was forced to surrender under a ruling of the National Boxing Association and also by decision of Eddie Egan, chairman of the New York State Athletic Commission, which operates independently of the NBA.

Under the terms of last night's match, Robinson is required to give LaMotta a return bout, probably in New York, next June. However, Truman Gibson, secretary of the sponsoring International Boxing Club, wondered if LaMotta wanted to face the prospect of absorbing another beating from his conqueror.

LaMotta remained in an unfavorable condition for two hours after he walked from the ring under his own power. He was immediately administered oxygen when he reached his dressing room. He was completely exhausted and suffered chills.

Dr. J. M. Houston of the Illinois Athletic Commission and Jake's own personal physician, Dr. Philip Bunori, New York, remained in constant attendance until he was able to leave for his downtown hotel quarters with his wife, Vicki.

The attendance gate was \$180,619 and the net was \$138,939. The attendance exceeded expectation despite television and its estimated 30,000,000 viewers. LaMotta's share of the gate was \$62,520 and Robinson received \$20,840. Each fighter also had a TV cut of \$1,500.

LaMotta held the middleweight championship two days short of 20 months. He won it from the late Marcel Cerdan of France at Detroit, June 16, 1949. He successfully defended it twice. Robinson had ruled the welterweights since Dec. 20, 1946.

The rugged LaMotta, never knocked off his feet in 95 contests, retained this dubious honor in losing to Robinson. The bout was stopped at 2:04 of the 13th round.

The "Bronx Bull" was battered into a state of helplessness which prompted Referee Frank Sikora to step between the men and order Robinson to his corner.

LaMotta, the only man ever to defeat Robinson, never fought more determinedly than he did last night. For eight rounds he actually forced the battle. He outboxed the confident Robinson with resounding body blows and jolting lefts to the head and often forced him into retreat with his two-fisted attack.

The jolting LaMotta had the spirit to triumph, but did not have the stamina for the 15 round championship route. He out-weighted Robinson 4½ pounds, scaling 160 at yesterday's weigh-in.

The tide turned in Robinson's favor in the ninth round when Jake began losing his aggressiveness and ability to escape from Robinson's shattering punches. He turned into little less than a target for the welterweight champion.

The bout then began to move to its inevitable conclusion. Jake was virtually helpless all through the 12th as Robinson stung him with every blow he could pitch. The wilting LaMotta sought the refuge of the ropes and was unable to fight back.

The contest, now one-sided, continued into the 13th and although the outcome was obvious the crowd was cheering wildly that LaMotta was still on his feet as Robinson whaled away at him.

Stan Musial of the St. Louis Cardinals set a new National League record last season when he scored 105 times. It was his seventh straight campaign as a scorer of more than 100 runs.

Britain Runs Steel Industry
20% Of Economy Becomes Socialized

LONDON, Feb. 15 (AP)—The British Labor government went whole hog into the steel business today. Twenty per cent of the nation's economy now is socialized.

Private ownership of the steel industry, which is the third largest in the world, ended at midnight. The private companies were taken over by the British Iron and Steel Corp., a government holding company that will set policies on prices, expansion schemes and general administration.

Have You Maturing E Bonds?
It's Smarter To Hold Them

WASHINGTON, Feb. 15 (AP)—If you own some Series E savings bonds that will mature—be 10 years old—this year, prospects are you'll do better to hang on to them than to cash them in and buy new E bonds with the money.

That's because of a treasury bill that the House has approved and the Senate is expected to pass in plenty of time to become law before the first of some \$34,650,000,000 in outstanding E bonds mature May 1.

A Matter Of 10 Million Tons
Takes Steel For Steel,
Industry Reminds U.S.

NEW YORK, Feb. 15 (AP)—Steel companies will have to use about 10 million tons of steel to keep their own expansion programs moving in the next two years, Iron Age, metalworking trade weekly, said today.

But by failing to set up priorities for such steel use, the publication said, the government so far "has not recognized that it takes steel to make steel."

To keep the programs on schedule, it reported, the steel companies have resorted to a barter system. This is because few companies can produce all the items required in a construction program. Thus, a company trades some of its own products with another company that makes what it needs.

Iron Age said tonnages involved in such trading are considerable and are expected to increase during the next six months. It added:

"Obviously new steel mills proposed by people not now in the steel business cannot be built unless steel is provided under a government-directed program. They have no steel to trade and present producers cannot be expected to supply them during a period of extreme shortage—unless the government directs them to do so."

Noting reports that steel used in automobiles may be slashed as much as 40 per cent in the second quarter, the trade weekly said: "Such a cutback could mean unemployment of nearly half a million men—unless placing of defense orders is miraculously speeded."

Meanwhile, it found increasing evidence that government programs are competing with each other for steel and that government directives which strike without warning are intensifying the problem of juggling production schedules to meet requirements.

"Many in industry fear that too many tickets are being printed for steel's big production performance," Iron Age said. "Demand for tickets from military and civilian customers is terrific. Some one ought to count the seats and make sure that only one ticket is issued for each seat (each ton of steel)."

Steelmaking operations this week were placed at 98.5 per cent of rated capacity by Iron Age, which said the final toll of the railroad switchmen's strike will be more than 200,000 tons of lost steel production.

Bob Feller of the Cleveland Indians holds a better than .500 mark over every club in the League except the Yankees. They have beaten Feller 30 times while he has stopped them 26 times.

Best Suggester For 1950

City Man Wins Crucible Contest

WILLIAM J. ZOOK (left), of 150 Ravine St., received an outboard motor as champion suggester for 1950 at the Midland Works of the Crucible Steel Co.

The ceremony took place Wednesday afternoon at William R. Howell (right) congratulated the East Liverpool man, with Fred S. High, Rolling Shop superintendent, looking on.

Mr. Zook, a draftsman in the Rolling Shop, won the prize because two of his suggestions were accepted by the committee, Glenn Roberts, secretary, said. Mr. Zook previously was awarded checks totaling \$305.

Mr. Howell announced the winning foreman in the 1950 contest was C. G. Moore, rolling foreman in the 8-12-14-Inch Mill. More workers under his supervision had more suggestions accepted and of greater worth than any other foreman at the Midland Works.

Mr. Howell urged more employees to participate in the suggestion plan.

He said in the three years the plan has been in use, 1,000 suggestions have been submitted, 90 were accepted with awards totaling \$5,638 and a total savings to the company of \$58,111 resulted.

In 1948, 25 ideas were accepted, with suggesters being awarded \$821. The savings to the firm was \$9,521.

The following year, 24 received checks totaling \$1,657, and the company saved an estimated \$15,630, and last year 41 were paid \$3,160 in awards and the firm benefited by approximately \$32,960. They averaged \$77.74 per idea.

West Virginia Schools

Ask 11 Million More

CHARLESTON, W. Va., Feb. 15 (AP)—West Virginia's county school superintendents have urged a school program costing \$11,000,000 a year more than is provided in the budget bill.

President R. S. Dispanet of Hardy county announced the action taken by the West Virginia Association of School Superintendents, which concluded a two-day meeting.

Major part of the program would be a \$9,200,000-a-year increase in teachers' salaries, on a scale advocated by the West Virginia Education Association. This would provide a basic salary of \$2,400 a year for a beginning teacher with a college degree.

Another \$1,800,000 a year would be added through changes in a proposed school aid formula recommended by the Board of School Finance.

U.S. Protests Showing Of Viva Villa By Reds

WASHINGTON, Feb. 15 (AP)—A new American protest to Moscow is expected immediately over the unauthorized showing of Hollywood films to Soviet moviegoers.

The State Department, after complaining against the showing of two films in distorted form, has now been advised that a third has been going around in the Soviet Union.

It is Viva Villa, starring the late Wallace Beery, which Metro-Goldwyn-Mayer made in 1934. Officials said evidence is lacking that it has been mutilated to present a Soviet propaganda version of American life, but the State Department contends that the film is private property and Russia has no right to exhibit it.

Taft Mail Pours In

WASHINGTON, Feb. 15—Mail reaction to his Taft-for-president campaign is encouraging. Representative George H. Bender (R) of Ohio says. His monthly political newspaper recently endorsed Mr. Bender said since then he has received thousands of letters, with all but a few endorsing Mr. Taft's candidacy.

4 Years Work In 3

ATHENS, O., Feb. 15—Ohio University will offer an 11-week summer term beginning June 18 that will enable students to complete four years work in three. Basic ROTC courses will be included, as well as academic subjects. Dr. John C. Baker, university president, said the accelerated education program will help meet "greatly-enlarged military leadership requirements".

PHILADELPHIA, Feb. 15—Dr. Charles D. Hart, 79, nationally-known Boy Scout leader, a member of the National Council, Boy Scouts of America, and honorary chairman of the Philadelphia council, died here last night.

Question Mark Hangs Over Yugoslavia

Should West Help If It's Attacked?
Adds To Ike's Task

WASHINGTON, Feb. 15 (AP)—As he leaves for Europe again, General Dwight D. Eisenhower is confronted with the task of building an Allied defense against possible Soviet aggression, while apparently uncertain of all the conditions under which that force might have to fight.

The big question mark hangs over Yugoslavia. The question is this: If Soviet satellite armies—with or without direct Soviet assistance—attack Yugoslavia, should the West go to her defense?

In recent weeks this question and others related to it—covering possible arms aid for Marshal Tito and the like—have been considered carefully here and in consultation with the British, French and other western governments.

General Eisenhower, sailing for Europe from New York today, presumably has been briefed on the official estimate of the situation developed in this period. What it is now and what it may become in the future are clearly matters of utmost importance to his European Allied command.

Authorities here agree his position would be simplified if he could know definitely whether the Atlantic allies would join battle against aggression on Yugoslavia as the U.N. did in Korea. But indications are that decisions as to specific action would be finally made after the emergency arose.

The question of American policy toward Yugoslavia was put to Secretary of State Dean Acheson at a news conference yesterday. He replied that he could not say anything specific, but that American policy could be summed up in the words of a statement President Truman made last July.

Mr. Truman, referring to the men in the Kremlin, had warned that those who have the power to unleash or withhold acts of aggression should realize that "new recourse to aggression in the world today might well strain to the breaking point the fabric of world peace."

Mr. Acheson added that the American attitude toward aggression had been shown in Korea. Top officials believe that while the Communists leaders might have thought last June they could get by with the conquest of Korea they now must assume that even satellite attacks on Yugoslavia very likely would spark World War III.

Russian Doctor Transplants New Hearts, Lungs In Dogs

MOSCOW, Feb. 15 (AP)—The Communist youth newspaper, Komsomolskaya Pravda reported yesterday that new hearts and lungs have been given to dogs in surgical operations.

This achievement is credited to V. P. Demikhov of the Vishnevsky Surgical Institute of the Academy of Medical Sciences in Moscow. Demikhov says the old heart and lungs were removed after the transplantation. He says these borrowed organs continued to live in their new surroundings, and that the dogs lived for long periods with their new vital organs. The length of life was not given specifically, but Demikhov implied that there was no shortening of the dogs' lives.

under pressure. No details are given as to how this was done. He says the surgery as now practiced is not very complicated. He makes no claim that his technique can be used on human beings, but says that in time a heart transfer may be possible.

(It appears from the brief Demikhov report that the borrowed hearts are from healthy animals. Borrowing healthy human hearts would be difficult, but not impossible, if they could be taken from persons killed in accidents. But even if that should become possible, the methods of keeping the human heart alive have not been developed.

The report does not explain what Demikhov may have done to keep the borrowed organs alive in their new bodies. Keeping even borrowed skin alive, for grafting burns, is still an unsolved problem in western medicine. Recently the new hormones, cortisone and ACTH, have seemingly caused borrowed skin grafts to continue alive. But evidence on this is not yet clear, because those hormones produce new skin on burns that never before healed without skin grafting.)

A wonderful, new, de luxe quality Ice Cream made according to a recipe by Duncan Hines, America's foremost authority on good eating!

NOW AVAILABLE AT ALL ISALY STORES

Isaly's are proud to have been selected by Duncan Hines to make this finer Ice Cream. After your first spoonful, you'll say, "Why hasn't somebody made an Ice Cream like this before?" For this wonderful, new Ice Cream is finer than any you've ever tasted. It's an Ice Cream that only a gourmet like Duncan Hines could develop and an Ice Cream that only a top quality dairy can produce.

For Duncan Hines Ice Cream is made with rich, golden, fresh cream. The flavors are the finest that money can buy. It's made with precision care and delivered fresh to your neighborhood Isaly Store.

Try Duncan Hines Ice Cream yourself. Give your family a treat. All will agree that Duncan Hines Ice Cream is better in many ways.

1. It's Rich! That's because we use more good, rich cream. You'll note the difference from the first bite because it is full-bodied and there's more richness in every spoonful.

2. It's Tastier! That's because only the finest of flavors are used in Duncan Hines Ice Cream... big, firm, full-flavored toasted pecans for the butter pecan... the finest of chocolates and vanilla.

3. It's Smoother! You'll never find grains or lumps in Duncan Hines Ice Cream. It is always made smooth as velvet and it stays that way.

Duncan Hines, America's best-known authority on good eating, has guided millions of travelers to the finest restaurants and hotels through his book, "Adventures in Good Eating." Feature stories about him and his work have appeared in The Saturday Evening Post, in Reader's Digest, Better Homes and Gardens, Life, Coronet and Town and Country.

Now, with Duncan Hines Ice Cream, you and your friends can enjoy an "adventure in good eating" right in your own home. On every pint appears this statement by Duncan Hines.

GOOD FOOD

For fifteen years I have made a business of discovering good eating places which I list in my book, "Adventures in Good Eating."

Delightful as dining out can be, there is nothing more satisfying than a good, well prepared and properly served meal in your own home. This satisfaction is fairly simple to attain. Select good food, prepare it with loving care, serve it amid pleasant surroundings, and finally take the time to enjoy it.

PTA To Stage 'Country Fair'

McKinley Association Plans Event March 2

The McKinley Home and School Association outlined initial plans for a "Country Fair" March 2 during its monthly meeting Tuesday night.

The program consisted of musical numbers by the school orchestra under the direction of Ralph Johnson, and the second grade, taught by Mrs. Beulah Jones.

A film, "The Fight for Better Schools", was shown. Devotions were conducted by Mrs. Thomas Fannin and Herman Miller, president, was in charge of the business session. Pupils of Mrs. Jones' room won the attendance banner.

Committee chairmen named for the "Country Fair" by Walter Dlugozima, general chairman, included the following:

Country store, Mrs. Virgil Boston; popcorn stand, Donald Skidmore; white elephant auction, Mrs. Frank Oyster; fish pond and games, Mrs. Keith Rugh; candy shop, Mrs. Stanley Hillbert; checkroom, Mr. and Mrs. Dan Richards; food stand, Mrs. Kenneth Berg; corsages, Mrs. Elmer English and Mrs. Donald Golden; Coke bar, William Dickey; decorating, Hans Hacker; publicity and square dance, Mr. Dlugozima; ticket takers, Mrs. Carl Werner, and ticket exchange, the officers of the association, headed by Mr. Miller.

Refreshments were served following the meeting by Mrs. Walter Dlugozima and Mrs. James Bolles. Valentine appointments decorated the table.

Newell Boys Invited To Join New Scout Troop

Newell boys 11 to 14 years of age interested in joining a proposed scout troop have been invited to a "Get-Acquainted-With-Scouting" meeting Monday at 7:30 p. m. in the Presbyterian Church.

Jobs of various troop committeemen have been listed by C. T. Finley, institutional representative. Members include J. B. Cartwright, chairman; J. Fred Allison, secretary; R. D. Stanford,

finance man; William McGowan, outdoorsman, and L. A. Rush, advancement man.

The committee met Monday night with Columbiana Boy Scout Council officials to discuss plans for formation of the troop, which will be sponsored by the Lions Club.

Several important groups of mammals began making their appearance some 55 million years ago in the Eocene period.

LOOK OUT, CRIMINALS. Chester's first police cruiser went into service at noon Wednesday as the Lions Club, which sponsored the campaign to raise funds for its purchase, turned the keys over to Mayor DeMar Miller. Mayor Miller (center) is shown accepting the keys from Charles Anderson, Lions committee chairman, as John Malarkey, club president, looks on. The brief ceremony took place in front of City Hall. Delivered a week ago, the 1951 four-door black Chevrolet sedan was purchased for \$1,575. It was financed with \$975 raised by the Lions in a solicitation campaign and an \$800 appropriation by City Council. A two-way radio and siren have been installed and identifying "Chester Police" signs have been lettered on each side. The club started the campaign in August after council had promised the \$800 starting fund. The cruiser was ordered in October from the Hobbs Lincoln Service Station. Patrolman Harold Davis will drive the new vehicle. The radio will link with the Hancock sheriff's office.

LISBON, Feb. 15 (Special)—The March of Dimes campaign in the Lisbon district stood at \$1,264.23 today—a slightly more than half of the \$2,500 goal.

Donations Wednesday included \$31.71 from the Unity School, an additional contribution of \$7.10 from West Point School, and \$18 in miscellaneous donations.

Mrs. Milton C. Cope, co-chairman, said the drive is complete except for the Rogers and Negley Schools.

Ship Bill Rushed

WASHINGTON, Feb. 15—A bill authorizing the Navy to go ahead with a \$2,740,092,000 ship construction program was approved unanimously yesterday by the Senate armed services committee.

Pole Asks Asylum

WASHINGTON, Feb. 15—State Department officials said last night the Polish embassy's second-ranking diplomat, Zygmunt Litynski, has resigned and asked for asylum in the United States.

Liquor Board May Kill 'Seal-Off' Regulation

COLUMBUS, Feb. 15 (AP)—Should a state liquor board regulation that bans direct connections between permit premises and living quarters be repealed? Ohio Board of Liquor Control members yesterday decided to hold a public hearing on the question. But they did not set a date.

They issued a statement saying recent hearings have indicated enforcement of the regulation may work more hardships than benefits. And they said permit-holders now remodeling or about to start to comply with the regulation can stop work until the question is settled.

They pointed out that the national emergency has created a shortage of building materials and labor, making it more difficult to get such remodeling done now.

The regulation—No. 18—said living quarters must be sealed off from permit premises. It was adopted to make after-hour sales and operation of bawdy houses more difficult.

Bohlen Will Return As State Department Aid

WASHINGTON, Feb. 15 (AP)—Officials said last night that Charles E. Bohlen, one of the government's top experts on Russia, will return to his old post as State Department counselor.

The counselor, as third-ranking official in the State Department, plays a major role in shaping foreign policy. The position has been vacant since George F. Kennan left last fall to go to Princeton University.

Mr. Bohlen, an adviser to the late President Roosevelt at Tehran and Yalta and to President Truman at Potsdam, and now counselor at the Paris embassy, is in the U. S. for consultation at the State Department. Mr. Truman is expected to send his new nomination to the Senate soon.

'Frozen-Stiff' Woman

CHICAGO, Feb. 15 (AP)—Chicago's Dorothy Stevens, Chicago's frozen woman, will not have to undergo any major amputations, physicians at Michael Reese Hospital have told her.

Bandages were removed from her legs yesterday and physicians said they are in an "excellent condition" with no trace of gangrene.

Mrs. Stevens' chances are excellent, a hospital spokesman said. "She is not likely to lose any digits, feet or arms."

5 Hurt On Trolley

PITTSBURGH, Feb. 15—Five women were injured, one critically, last night when a steel rod on a tractor-trailer truck driven by a Barberton (O.) man slashed into a trolley car in which they were riding.

Keeps Heart Beating

INDIANAPOLIS, Ind., Feb. 15—A surgeon stopped an appendix operation on a 2-year-old girl for 30 minutes yesterday and kept her heart beating by massaging it.

House Group Studies Draft

Considers Measure Backed In Senate

WASHINGTON, Feb. 15 (AP)—The House armed services committee set out today on a "paragraph-by-paragraph" study of the universal military training and service bill approved by its opposite number in the Senate.

The measure, which would allow drafting of 18-year-olds and extend the period of military service, cleared the Senate armed services committee yesterday, 13 to 0. No time has been set for Senate debate.

The House group then ordered its professional staff to make an analysis of the Senate bill as a possible pattern to follow in its own closed-door consideration of the administration-urged plan for bolstering the nation's military manpower.

It is believed, however, that the House group is far from satisfied with either the Senate bill or the original measure proposed by the Defense Department. It has called for additional testimony from department officials and probably will not complete its bill before early next month.

The Senate measure would authorize induction of 18-year-olds, but only after their draft boards have exhausted all available men in the 18-through-25 age bracket.

It would lengthen the required period of military service from 21 months to 24 months "exclusive of leave." This would amount to 26 months and five days if the draftee took his leave as it accumulated at the rate of two and a half days a month.

The length of required service is important to other than future draftees. It would apply also to men already drafted, to National Guardsmen and to reservists who have been or will be called to duty.

In Syria, writing is done from right to left, the people nod up instead of down, men greet each other with a kiss and wear skirts while the women wear trousers.

Nazi Hangings Are Delayed

Last-Ditch Battle Waged In U.S. Court

LANDSBERG, Germany, Feb. 15 (AP)—A last-ditch fight for life in a federal district court in Washington today staved off the scheduled hanging of seven German war criminals at a U. S. prison here.

Colonel W. R. Graham, prison commandant, said that as long as the U. S. court considers a habeas corpus action filed by an attorney for the seven condemned men, the executions will be stayed.

The seven—former S.S. officers and concentration camp officials accused of the murder of thousands of civilians during World War II—originally were to have gone to the gallows Tuesday night. The hanging was put off until last night, then postponed again because of the men's legal struggle.

The U. S. court denied a habeas corpus writ Tuesday. Yes.

Using 1040 Short Form? Here's How You Do It

(This is the 10th of 12 stories explaining who has to do what about his 1950 income tax return.)

By JAMES MARLOW, Associated Press Staff Writer
WASHINGTON, Feb. 15—Anyone with under \$5,000 income can make his 1950 income tax return on the 1040 short form. It's for the under-\$5,000 people who can't use the simpler Form 1040-A because they didn't have any tax or enough tax withheld in 1950.

With the short form there's no tax figuring. You answer questions and find your tax in the table on Page 4.

The under-\$5,000 people using Form 1040 as a short form get a standard deduction of about 10 per cent of their income for personal expenses.

You don't have to claim that deduction or itemize it. You just get it. If your deductions were more than 10 per cent, don't use the short form. You'll lose money.

Instead, use Form 1040 as a long form. Which means you must figure your own tax on Page 3 and itemize all your deductions. But then you can claim them in full.

Be sure you attach to the short form—before turning it into the tax collector—any form W-2, the withholding receipt, given you by a boss for taxes withheld from you in 1950.

When husbands and wives file a joint return on the short form, both must sign it. Otherwise, the collector will consider it a single return.

Couples puzzled as to whether to file jointly should remember this:

If one of them had income, but the other didn't, they can't lose by filing jointly on the 1040 short form, providing that their total income was under \$5,000.

When a couple's total income is under \$5,000, but each had some, in most cases—but not all—they'll save money filing jointly on the 1040 short form.

Since there are exceptions, when both partners in a marriage had income—total under \$5,000—they should check the tax table carefully to see whether they'll save by filing jointly or separately on the 1040 short form.

And remember this one: Suppose a couple had total income under \$5,000. Husband and wife each had some of it. One of them wants to use the 1040 long form in order to itemize deductions to get more than the standard 10 per cent allowed with the long form.

Can the other just go ahead and file separately on the 1040 short form?

No. When one uses the 1040 long form to itemize, the other must use the 1040 long form and also itemize.

If husband and wife have total income of \$5,000 or more, although the individual income of each was under \$5,000, they can file separately on the 1040 short form, but not jointly.

Or they can file jointly on the 1040 long form. In that way they can split their income to reduce their tax.

Not much instruction is needed for handling the short form. Answer the questions on Page 1—and in some cases on Page 2 also—and find your tax in the table on Page 4.

Be careful, in using the table, that you find your tax in the column which gives you all the exemptions you can rightfully claim.

When you are finished, tear off Page 1 and turn it into the collector with any tax you owe. If you should get a refund, mark that in the proper place on Page 1. The collector will send it to you.

Here are some examples of using the short form.
Smith, single, no dependents, income of \$4,365. Of that, \$4,000 was in salary from which full tax was withheld. The other \$365 was in dividends or interest from which no tax was withheld.

Looking down the gray in-

come columns, he finds that his \$4,365 is in there between \$4,350 and \$4,400. Since he's single, with no dependents, he can claim only one exemption, for himself.

Then in the white column, under the one which shows the tax on a person claiming only one exemption, he finds that the tax on such a person with income between \$4,350 and \$4,400 is \$616.

Say that during the year the boss withheld \$553 from Smith. The latter finds now he owes \$63, the difference between the \$553 withheld and the total tax due on him, \$616.

So after filling out the return, and signing it, he encloses a check for \$63, addressed to the "Collector of Internal Revenue" for the district in which he lives.

Note this: Last year on Form 1040 anyone with income from dividends or interest merely listed the amount in the proper place on Page 1.

The form has been changed slightly this year on this point. Now you list the amount, as before, in answer to question No. 3 on Page 1 but on Page 2—in the place called Schedule A—you must give the name of the corporation which sent you the dividends, plus the amount.

If it was interest you got, you list the name of the person who paid it to you, plus the amount, in Schedule B on Page 2.

Take Jones. Say he had the same amount of income as Smith, \$4,365, but was married and had one child. His wife had no income and they file a joint return. Counting the child, the Joneses get three exemptions. The tax on them is \$372.

But suppose Mrs. Jones, with no income, absentmindedly forgot to file a joint return with her husband. He still gets three exemptions—one for himself, one for his dependent child and one for his wife, since she had no income—but his tax would be \$376. By failing to file jointly, the Joneses didn't get the benefit of splitting their income to get a lower tax.

By the way, the tax in the table on Form 1040 which you use for making your return on 1950 income is slightly higher than the tax in the table on the Form 1040 you used last year in making return on 1949 income. That's because the tax was raised, starting last October.

Cherry Cream Pie
Broadcast: February 17, 1951
No. 2 can pitted cherries 2 cans, strained
1 package vanilla pudding powder 1/2 cup Fat Milk
1/4 cup water 1/2 teaspoon vanilla
1/4 cup sugar
Drain cherries well. Put pudding powder and 1/4 cup sugar into saucepan. Stir in mixture of slightly beaten egg yolks, milk and water. Bring to a boil over low heat, stirring all the time. Cook and stir 30 seconds. Stir in vanilla. Cover and cool thoroughly. Then fold in well-drained cherries. Put into cold 9-in. baked pastry shell made with pie crust mix. Beat egg whites stiff; slowly beat in 1/4 cup sugar. Put on custard, spreading to edge of crust to seal in filling. Bake in slow oven (325) 15 min., or until light brown. Cool before serving.
